

**Right Turn Only Airport Road to Southbound CO 119:**  
Prevents crashes at Airport Road and northbound CO 119 and creates space for safe connection to the bikeway.

**No Left-Turn onto Southbound Airport Road:**  
Frees up existing space for a cost-effective bus queue bypass lane, facilitating fast and reliable transit service.

**Airport Road converted to One-Way Northbound:**  
Prevents crashes at Ogallala/Airport roads and northbound CO 119, enhancing corridor safety and traffic flow.

**Straight Through from Ogallala Road to Airport Road:**  
Maintains Ogallala Road through movement while improving visibility at the intersection with Airport Road.

**Bike and Pedestrian Improvements**

- 1** Southbound Airport Road Bike Lane:  
Provides extra space for bikers on Airport Road.
- 2** Concrete Waiting Area and Raised Crossing:  
Improves safety and comfort for bikers and pedestrians crossing CO 119.
- 3** Bike and Pedestrian Crossing Islands:  
Provides safer crossing from Airport Road to bikeway.
- 4** Airport Road Bikeway Bulb-Out:  
Improves safety by reducing travel distance for bikers and pedestrians crossing Airport Road.
