

CONSTRUCTION 2019

- Improves Eastbound I-70 operations and safety by reducing congestion in proximity to the Kipling Street Off Ramp
- Would be in place and not require additional construction during ultimate I-70/Kipling Interchange project
- Adds capacity to address the immediate need and provides benefit during construction of the ultimate I-70/Kipling Interchange reconstruction
- Widening along Eastbound I-70 expected to be within existing CDOT right-of-way (no right-of-way acquisition)
- Estimated cost: \$2.3 million
