

ALTERNATIVES Issue Task Force (ITF)

Mission, Roles and Responsibilities*

The Alternatives Issue Task Force is a multidisciplinary team that includes stakeholders and experts in the Core Values surrounding development of alternatives. As a team member, it is your responsibility to work through the elements of the identified issues in order to reach a recommendation to be taken forward to the Project Leadership Team (PLT), the Technical Team, or the Project Staff.

Issues to be analyzed for Level 1 for all options (with explanatory notes) include;

- Verify alternatives selected for Level 1 Analysis
 - Logical termini
 - Elements of each alternative, including transit component
- Development of possible additional alternatives/options relative to the I 70 Mountain Corridor Core Values, Critical Issues, and Performance Measures.

This issue list is dynamic, and at the discretion of CDOT/FHWA, other items may be added as the Study proceeds.

In most cases, CDOT and Consultant staff will prepare deliverable materials for the ITF to share, discuss, review/edit, and act move ahead to the PLT/TT. Meetings will be structured for open conversations and information sharing. Consultant staff will distribute materials to the ITF for review prior to the meeting, for discussion at the meeting.

Task force member Ralph Trapani (Parsons) will be responsible for documenting the process and making recommendations to the PLT/TT (with assistance from other ITF members).
