

I-25/Cimarron Interchange Design-Build Project

We Heard

**Reduce construction duration
by allowing temporary closures**

Closures being considered:

1. If necessary: close I-25 northbound on-ramp up to 90 days, but not during the summer tourist season.
2. If necessary: close Cimarron Street east of the I-25 interchange up to 120 days, but not during the winter holiday season.

Minimizes overall inconvenience to traveling public.
