

Long-term closure of Steele Street on-ramp to westbound I-70

Nov. 9 through summer 2021

As part of the Colorado Department of Transportation’s Central 70 Project, the Steele Street on-ramp to westbound Interstate 70 will close at 5 a.m., Monday, Nov. 9 through summer 2021 to accommodate for demolition of the existing ramp and construction of the new ramp as part of the final alignment. When the ramp reopens next year, it will carry motorists into the new lowered section of I-70.

To detour, motorists using southbound Steele Street/Vasquez Boulevard will travel eastbound on 48th Avenue to southbound Colorado Boulevard to westbound I-70. Motorists on northbound Steele Street/Vasquez Boulevard will get on eastbound I-70, exit at Colorado Boulevard and turn left to northbound Colorado Boulevard to westbound I-70.

Thank you for your patience and drive safely. This work is weather-dependent and subject to change.
