

Every day, 200,000 vehicles travel the I-70 corridor between Brighton Boulevard and Chambers Road. CDOT and Kiewit Meridiam Partners recognize the importance of maintaining traffic flow throughout the duration of construction.

The following commitments have been made to minimize traffic impacts.

## KEEPING TRAFFIC MOVING

- Viaduct remains in place until 2020
- Three lanes open in each direction on I-70 during daytime hours
- Limited number of full closures and major traffic switches on I-70
- Programs/incentives to encourage carpooling and transit use
- Coordinated on-ramp and cross street closures to maintain access
