1.1.2. Workforce Development

To account for the lag-time in Certified Payroll Submittals, Workforce Development numbers reflect the month prior to the actual reporting period. This report reflects workforce hours from October 1st to October 31st, 2020.

1.1.3. On-the-Job Training

The Department approved two OJT participants in October 2020. One was a carpenter apprentice for Kiewit, and one was an electrician apprentice for Sturgeon. Seventy-nine of the one hundred seventeen active participants actively participated for Department approved OJT credit this month. In October, 12,072.50 OJT hours were reported.

1.1.4. Local Hire

Fifteen individuals were submitted for Acceptance into the Local Hire Program in October 2020, all of whom were new hires. The total enrollment count is 668 individuals, with 120 of the 668 (18%) local hire individuals working in non-craft positions.

Not all local hire individuals who have been Accepted have worked hours on Central 70. To date, 628 (94%) of the Accepted local hire individuals have worked on the Project. This is the number used to calculate the monthly Workforce at a Glance report.

The New Hire Hour goal was met in July 2020.

Local hire hour subtotals (new hires and overall) are included in Table 3.

1.2. Civil Rights Compliance Issues/Areas of Concern

Department audits performed during the spring and summer of 2018 identified numerous non-conformance issues with KMP’s implementation of Civil Rights programs. The Department requested that KMP provide IQC resources and an updated QMP to address non-conformances. In September 2018, the Department conditionally approved KMP’s process and quality procedures for civil rights. In March 2019, the Department created and assigned a QRD Audit to KMP regarding KMP’s process and quality procedures; this audit has since been closed. In March 2020, the PC Process was Conditionally Approved with comments, and a revision was submitted to Department on July 1, 2020, comments have been provided to KMP and a revision is in the works. Moving forward, as the PC Process is a living document, revisions will be submitted no less than annually and in the event a revision is needed due to process changes during the year. The Department continues to monitor the implementation of the plan as KMP works toward full approval. Due to the complexity of Civil Rights issues, the Department and KMP will continue monitoring performance to determine whether KMP’s process is performing as intended.

Areas of concern addressed in the process and quality plans include:

- Submittal of initial and updated 1415 forms;
- Submittal of corrected 1415 forms;
- Monitoring subcontractors that have been removed from the project due to non-compliance;
- Issuing Late and Final Notices per the conditionally approved PC Process;
- Issuing Rejection Notices per the conditionally approved PC Process;
- Accuracy and Completion of the Certified Payroll (CPR) Status Report;
- Obtaining updated Contractor Fringe Benefit Deductions Statement forms;
- Obtaining updated Owner Operator supporting documentation and
- Obtaining supporting documentation for payroll deductions.

Areas of progress:

- Requesting permission to sublet before a subcontractor starts on the project, pursuant to the FHWA-1273;
- Timely and accurate reporting of certified payrolls pursuant to the Davis-Bacon Act;
- Including all required provisions in subcontracts of every tier;
- Submittal of 1432 forms;
- Timely completion of CUF's to limit the amount of No Observation CUF submissions;
- Submission of completed Commercially Useful Function (CUF) Forms;
- Subcontractor Closeout process;
- Prompt Payment reporting in B2GNow; and Issuance of NCR's within 24 hours of becoming aware of non-conforming work.
