

Construction Activities - April 2019

Look for the following work to occur this month:

- Setting bridge beams on the new southbound I-270 flyover structure to eastbound I-70
- Overnight closures on Peoria Street under I-70 to set bridge beams on the newly widened portions of the I-70 bridge
- Permanent closure of North Vasquez Boulevard Frontage road between Clayton and Milwaukee streets
- Drilling supports for the future lowered section between York Street and Colorado Boulevard
- Lane restrictions and closures on Stapleton Drive between Colorado Boulevard and Quebec Street to begin interstate widening
- Traffic shifts and pattern changes at the Colorado Boulevard and I-70 interchange, including removal of the eastbound loop on-ramp to I-70 from southbound Colorado Boulevard. Loop ramp will be replaced with a signalized left turn
- Rebuilding the Brighton Boulevard and I-70 interchange. Traffic has shifted to one lane in each direction to accommodate this work
- Construction of the new I-70 bridges over Dahlia and Holly streets
- Utility work on 46th Avenue between York and Steele streets will restrict access on cross streets along 46th Avenue as water and sewer lines are installed

I-270 flyover girders getting ready to be set

Construction activities are weather and site condition dependent and schedules are subject to change.
