## ANTICIPATED INNOVATIVE CONTRACTING PROJECT ADVERTISEMENT – DECEMBER 2018

### NOTICE TO INDUSTRY: I-70 FLOYD HILL TO VETERANS MEMORIAL TUNNELS Project # NHPP 0703-446 (21912) Bridge Enterprise (BE) Project # FBR 0703-457 (22716)

The Colorado Department of Transportation (CDOT) is proposing to reconstruct I-70 from Floyd Hill to Veterans Memorial Tunnel contingent upon identification of project funding. The project advances improvements on the I-70 Mountain Corridor identified in the 2011 I-70 Mountain Corridor Record of Decision (ROD).

The purpose of the project is to add an additional westbound lane to improve travel time reliability, safety, mobility, and to address deficient infrastructure on I-70 through the Floyd Hill area of the I-70 Mountain Corridor. The project will also address tight horizontal curves on eastbound I-70, improve multimodal connectivity, and provide an alternate route by adding a frontage road parallel to the interstate in case of emergency or severe weather conditions.

CDOT anticipates utilizing the Construction Manager/General Contractor (CM/GC) delivery method on the I-70 Floyd Hill to Veterans Memorial Tunnel project contingent upon construction funding being identified by the end of the calendar year. CDOT assumes no obligation of any kind to officially advertise this project until approved by CDOT Executive Management and the Transportation Commission.

Current Project Cost is estimated at \$550 million.

The non-prioritized goals for the project are:

- Improved I-70 Safety, Mobility, and Operations
- Stakeholder Commitment and Partnership
- Minimize Construction Impacts

Implied project goals include: schedule, fiscal responsibility and resources, safety, quality, environmental and public communication.

**More information will follow as it becomes available and will be posted to the project website:**
