

**ZONE 5: DOWD CANYON**

**VAN DEER UNDERPASS PROPERTIES (CDOW)**

Dowd Junction  
Wildlife Underpass  
EB & WB  
Length: 101,000  
Height: 10,000

**PROPOSED TO REPLACE CBC WITH BRIDGE**

**PROPOSED CBC UNDERPASS**

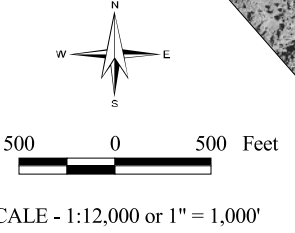

- Replace existing wildlife crossing structures to be as large as possible depending on engineering design requirements and topographic limitations of the area.  
mp 170.2 to mp 172.5:  
- Replace existing wildlife fencing with reinforced fence through rockfall area north of I-70, where current fencing has numerous holes.

Dowd Junction  
Bridge  
EB & WB
