

## **HISTORIC CONTEXT WORKING GROUP**

ATTENDEES: The meeting attendance list is attached.

DATE: July 14, 2008

LOCATION: Silver Plume Large Town Hall

PROJECT CDOT Project # 15613 CMS 07-028  
NUMBERS: Code 15954.10.50  
CH2MHILL # 358654

### **INTRODUCTION**

These meeting minutes reflect the decisions and action items agreed on at this meeting. If your meeting notes reflect any substantial differences from these notes, please advise Kevin Shanks (kshanks@thkassoc.com) as soon as possible.

### **AGENDA**

The agenda for the meeting is attached. The meeting followed this format after a brief status report on Rock Fall Mitigation by Janet Gerak, CDOT Region I, and Lisa Schoch, CDOT.

### **ROCK FALL MITIGATION (MP226-228)**

A separate Section 106 Programmatic Agreement covering historic mitigation for Rock Fall Mitigation between MP226 and MP228 is being prepared. Although it has not yet been signed, test panels have been prepared to help in the selection of colors for the netting and posts which will match the colors of the rock slopes adjacent to I-70.

### **WORKING GROUP GOALS, OUTCOMES AND ACTIONS**

The group agreed that the goals, outcomes and actions for the I-70 Context Report were all predetermined in the Programmatic Agreement and are accurately represented in the I-70 CSS Historic Scope of Work to be prepared by Mountain States Historical.

### **REVIEW OF OVERALL STUDY PROCESS FOR HISTORIC CONTEXT REPORT**

The group was given an overview of the study process. The Corridor will be broken down into geographic units reflecting patterns of use and settlement. An overall mosaic of historical background will be developed. This report is intended to be used as a guide during Tier 2 NEPA Analyses and documentation. It will provide guidance in helping to determine eligibility of historic properties within the Area of Potential Effect (APE).

Therefore, the report will include an explanation of National Register Criteria and how to apply them. The report will list categories or types of sites that fit the criteria. While key sites may be discussed as a part of the overall historic mosaic of the corridor, specific site identification will be a part of Tier 2 NEPA efforts.

Since the documents will be organized by themes, the group discussed the themes identified in the scope of work, as well as possible additional themes. After some discussion, it was agreed to proceed with the themes originally identified. It was determined that many of the themes had common subject matter. Therefore, final theme organization will be discussed as a part of preparing the final report document.

### **REVIEW OF DATA SOURCES TO BE USED**

The group was given an overview of the archive research to be done. It was explained that site-specific analysis was not part of this effort but will be done in Tier 2 NEPA efforts. Using existing information, key places, people, events and institutions will be identified. Periods of significance will also be identified including economic cycles, growth patterns, infrastructure development, etc.

### **NEXT STEPS**

1. The Working Group asked CDOT to provide the current copy of the APE map.
2. Christine Bradley agreed to be a point of contact for Mountain States Historical, being a clearinghouse for community questions and additional resource recommendations.
3. Copies of the bibliography were handed out and the Working Group members will provide input on potential additional resources.
4. Since Summit County had no representation present at the meeting, the Consultant Team will make an effort to reach out and engage them.
5. The Consultant Team will provide the Working Group with a schedule for the Historic Context Effort that includes major milestones and review periods.

The meeting ended at 2:30 p.m.

## Historic Context Working Group

### Agenda

July 14, 2008

1:00 – 3:00 p.m.

Silver Plume Large Town Hall

1025 Main Street

**Historic Context Working Group Purpose:** Develop a historic context or contexts for the I-70 Mountain Corridor to facilitate planning and streamline development of Tier 2 NEPA undertakings together with CDOT, in consultation with the State Historic Preservation Office (SHPO) and the other corridor consulting parties.

- |                              |  |
|------------------------------|--|
| <b>1:00 p.m. – 1:15 p.m.</b> | <b>Welcome and Introductions</b>                                   |
| <b>1:15 p.m. – 1:30 p.m.</b> | <b>Working Group Goals, Outcomes and Actions</b>                   |
| <b>1:30 p.m. – 1:45 p.m.</b> | <b>Review of overall study process for Historic Context Report</b> |
| <b>1:45 p.m. – 2:00 p.m.</b> | <b>Review of data sources to be used</b>                           |
| <b>2:30 p.m. – 3:00 p.m.</b> | <b>Next Steps</b>  |

Facilitator: Kevin Shanks  
 CDOT Rep: Michelle Li
