

# What has Changed

## an Update on the PEIS

---

The draft PEIS received many comments.

As an initial step, CDOT has addressed two of the major comments regarding criteria used to arrive at the 'preferred group' of alternatives.

**Comment: "Remove the \$4 Billion cost limit for the alternative".**

*This criterion has been removed.*

**Comment: "Need a longer-range vision to make this selection".**

*CDOT has agreed and will look at options/alternatives that address a 50-year timeframe.*

**These changes are a result of your comments.**

The 21 alternatives that were fully analyzed in the Draft PEIS, will be the options/alternatives discussed for the Collaborative Effort.
