

Words That Describe What's Important About The I-70 Corridor

Public Open Houses

November 12, 14 & 15, 2007

Options – Visit Tokyo for ideas for the future of transportation (also Europe)

Quick & Efficient

Minimize impact

Designed for all ages for access to local communities and metro areas

No only option to relieve pressure

Clean air

Important

Public transit

Pristine alpine environment requiring some level of preservation

Hi-tech/cutting edge

Efficient for everyone's needs for today and in the future

Tolling – Nay!

Connections between lifestyles

Show-place

Accommodates wildlife

East/west “bloodline”, no real viable alternatives

Fragile

Home

Predictable travel times

Mass transit international role model

Need fast & safe transportation with local connections

Include long-term economics of DIA

People - community members

Accessible

Beautiful scenery; historic communities; access to enjoy the mountains in summer, winter and in between

Mass transit travel to Denver airport that is so convenient and affordable that it becomes the preferred method of travel
