

DRAFT

(Revised February 22, 2002)

**AN INVENTORY
OF
I-70 MOUNTAIN CORRIDOR
WATER RESOURCE-RELATED ISSUES**

for

**Clear Creek
Eisenhower Tunnel (MP-214) to Floyd Hill (MP-244.4)**

Prepared by

**J.F. Sato and Associates

Littleton, Colorado 80120**

**AN INVENTORY
OF
I-70 MOUNTAIN CORRIDOR
WATER RESOURCE-RELATED ISSUES
for
Clear Creek
Eisenhower Tunnel (MP-214) to Floyd Hill (MP-244.4)**

TABLE OF CONTENTS

	Page No.
1.0 PURPOSE AND SCOPE.....	1-1
1.1 Relationship of SWEEP to the PEIS.....	1-1
1.2 SWEEP Participants.....	1-2
1.3 Background.....	1-2
1.4 Organization of Document.....	1-4
2.0 CLEAR CREEK AND ASSOCIATED WATER RESOURCE-RELATED ISSUES.....	2-1
2.1 Water Resource-related Categories.....	2-4
2.2 Major Issues Identified	2-7
2.2.1 Historical Mining (Mineral) Influences	2-8
2.2.2 Adjacent Land Use.....	2-9
2.2.3 Highway-related Construction, Operation and Maintenance Activities	2-10
2.2.4 Sedimentation	2-11
2.2.5 Channelization/Downcutting	2-12
2.2.6 Habitat Reduction and Fragmentation	2-12
2.2.7 Water-based Recreation	2-13
3.0 CLEAR CREEK STREAM SEGMENT 1: (Clear Creek/Summit County Line (Continental Divide) to Dry Gulch).....	3-1
3.1 Water Resource-related Categories-Existing Conditions	3-4
3.1.1 Water Quality.....	3-4
3.1.2 Hydrology/Hydraulics/Stream Morphology/Floodplains	3-4
3.1.3 Wetland and Riparian Communities.....	3-5
3.1.4 Aquatic-dependent Communities.....	3-5
3.2 Issues.....	3-5
3.2.1 Historical Mining (Mineral) Influences	3-5
3.2.2 Adjacent Land Use.....	3-6

3.2.3	Highway-related Construction, Operation, and Maintenance Activities	3-6
3.2.4	Sedimentation	3-7
3.2.5	Channelization/Downcutting	3-8
3.2.6	Habitat Reduction and Fragmentation	3-8
3.2.7	Water-based Recreation	3-8
4.0	CLEAR CREEK STREAM SEGMENT 2 (Dry Gulch to Bakerville).....	4-1
4.1	Water Resource-related Categories-Existing Conditions	4-4
4.1.1	Water Quality	4-4
4.1.2	Hydrology/Hydraulics/Stream Morphology/Floodplains	4-5
4.1.3	Wetland and Riparian Communities	4-5
4.1.4	Aquatic-dependent Communities.....	4-5
4.2	Issues.....	4-6
4.2.1	Historical Mining (Mineral) Influences	4-6
4.2.2	Adjacent Land Use.....	4-6
4.2.3	Highway-related Construction, Operation, and Maintenance Activities	4-6
4.2.4	Sedimentation	4-7
4.2.5	Channelization/Downcutting	4-7
4.2.6	Habitat Reduction and Fragmentation	4-7
4.2.7	Water-based Recreation	4-8
5.0	CLEAR CREEK STREAM SEGMENT 3 (Bakerville to Silver Plume).....	5-1
5.1	Water Resource-related Categories-Existing Conditions	5-4
5.1.1	Water Quality.....	5-4
5.1.2	Hydrology/Hydraulics/Stream Morphology/Floodplains	5-4
5.1.3	Wetland and Riparian Communities	5-4
5.1.4	Aquatic-dependent Communities.....	5-5
5.2	Issues.....	5-5
5.2.1	Historical Mining (Mineral) Influences	5-5
5.2.2	Adjacent Land Use.....	5-5
5.2.3	Highway-related Construction, Operation, and Maintenance Activities	5-5
5.2.4	Sedimentation	5-6
5.2.5	Channelization/Downcutting	5-6
5.2.6	Habitat Reduction and Fragmentation	5-7
5.2.7	Water-based Recreation	5-7

6.0	CLEAR CREEK STREAM SEGMENT 4 (Silver Plume to Georgetown Lake Dam)	6-1
6.1	Water Resource-related Categories-Existing Conditions	6-4
6.1.1	Water Quality	6-4
6.1.2	Hydrology/Hydraulics/Stream Morphology/Floodplains	6-5
6.1.3	Wetland and Riparian Communities	6-5
6.1.4	Aquatic-dependent Communities	6-5
6.2	Issues	6-6
6.2.1	Historical Mining (Mineral) Influences	6-6
6.2.2	Adjacent Land Use	6-6
6.2.3	Highway-related Construction, Operation, and Maintenance Activities	6-7
6.2.4	Sedimentation	6-7
6.2.5	Channelization/Downcutting	6-8
6.2.6	Habitat Reduction and Fragmentation	6-8
6.2.7	Water-based Recreation	6-8
7.0	CLEAR CREEK STREAM SEGMENT 5 (Georgetown Lake to Empire Junction)	7-1
7.1	Water Resource-related Categories-Existing Conditions	7-4
7.1.1	Water Quality	7-4
7.1.2	Hydrology/Hydraulics/Stream Morphology/Floodplains	7-4
7.1.3	Wetland and Riparian Communities	7-5
7.1.4	Aquatic-dependent Communities	7-5
7.2	Issues	7-5
7.2.1	Historical Mining (Mineral) Influences	7-5
7.2.2	Adjacent Land Use	7-6
7.2.3	Highway-related Construction, Operation, and Maintenance Activities	7-6
7.2.4	Sedimentation	7-6
7.2.5	Channelization/Downcutting	7-7
7.2.6	Habitat Reduction and Fragmentation	7-7
7.2.7	Water-based Recreation	7-8
8.0	CLEAR CREEK STREAM SEGMENT 6 (Empire Junction to Idaho Springs)	8-1
8.1	Water Resource-related Categories-Existing Conditions	8-4
8.1.1	Water Quality	8-4
8.1.2	Hydrology/Hydraulics/Stream Morphology/Floodplains	8-5
8.1.3	Wetland and Riparian Communities	8-5
8.1.4	Aquatic-dependent Communities	8-5
