

Roadway Alignment Options

Proposed Action - East Detail

Median Shift

Construct Retaining Walls/Shift toward Clear Creek

East Bound - Move Toward Median

East Bound - Move Toward Creek

- Minimizes and/or eliminates retaining walls along Clear Creek between Twin Tunnels and US 6
- Improves view for recreationalists using Clear Creek and Scott Lancaster Trail
- Cost savings of \$3.5-\$4.0 million

- Maintains existing median width to preserve rural highway feel for motorists
- Requires extensive retaining walls along Clear Creek, creating visual impacts for creek and trail users
- Costs \$3.5-\$4.0 million to construct walls.
