

Project Schedule

This schedule illustrates the Environmental Assessment and preliminary design phase of the project. At this time, funding has not yet been identified for subsequent project phases, which could include additional environmental analysis (if required), final design, and construction. The timeline for construction of improvements is dependent on funding availability. Completing this Environmental Assessment study provides more information about the recommended improvements for CDOT to consider in the pursuit of funding.

LEGEND

- Public Meeting
- Technical Team (TT) Meeting
- Project Leadership Team (PLT) Meeting
- Issue Task Force (ITF) Meeting
- ESP = Emergency Service Provider
- ALIVE = A Valued Landscape-Level Inventory of Ecological Values
- SWEEP = Stream and Wetland Ecological Enhancement Program
- 106 = Section 106 (Historic Properties)
- Trail = Recreation Trail

* Additional Technical Team, Project Leadership Team, and Issue Task Force meetings may be held as needed
