

## PROJECT UPDATE

# Westbound I-76 and York Street nightly closures scheduled for February 14, 2023

The Colorado Department of Transportation is making progress with replacing the I-76 bridges over York Street in Adams County. The next phase of construction will install westbound I-76 bridge girders that will support the driving deck. The work will require overnight road closures.

### Traffic Impacts

- Westbound I-76 from 88<sup>th</sup> Ave. to I-270, and York Street at 66<sup>th</sup> Ave. are scheduled to be CLOSED 9 p.m. to 5 a.m., Tuesday, Feb. 14.
- While work is being done at night to minimize traffic impacts, motorists should prepare for delays particularly on I-270. The York Street and I-76 closures under the bridge is necessary for public safety.
- The closure schedule could change depending on the weather and other factors. Go to [COtrip.org](https://cotrip.org) for the latest information on traffic impacts and road conditions.

### Detour Routes

- Westbound I-76 traffic will detour onto US 6-85 and I-270. Delays could be up to 20 minutes beyond typical night-time traffic conditions on I-270.
- A detour will be in place for York Street traffic from 66<sup>th</sup> Ave. west to Washington Street to 74<sup>th</sup> Ave. and back to York Street.

### Stay Informed

- Project email: [Info.I76.York.Dahlia@gmail.com](mailto:Info.I76.York.Dahlia@gmail.com)
- Project phone line: 303-575-1165
- Project website: [I-76 York to Dahlia Bridge Reconstruction – Colorado Department of Transportation \(codot.gov\)](https://www.codot.gov/projects/i-76-york-to-dahlia-bridge-reconstruction)
- Latest road conditions: [COtrip.org](https://cotrip.org)

### Remember: Slow for The Cone Zone

- Do not speed in work zones. Obey the posted speed limits.
- Stay Alert! Expect the unexpected.
- Watch for workers. Drive with caution.
- Don't change lanes unnecessarily and avoid using mobile devices while driving in work zones.
- Be especially alert at night while driving in work zones and turn on headlights so that workers and other drivers can see you.

- Expect delays.
- Allow ample space between you and the car in front of you.

**About the Project**

The project will replace the aging I-76 bridges over York Street and reconstruct much of the driving surface on I-76 from York to Dahlia streets in Adams County.

Built in 1967, the I-76 bridges are deteriorating, requiring multiple repairs. They need to be permanently replaced for the long-term safety of the traveling public. Other roadway improvements, such as new pavement, will greatly improve the driving surface. Project completion is scheduled for September 2024.
