

Boulder County Bridge Repair Project

PROJECT OVERVIEW

The Colorado Department of Transportation will begin a bridge repair and polyester concrete overlay project in Boulder County on Tuesday, July 5. Work includes repairs to two bridges for improved structural integrity and safety of the traveling public.

The first, on Colorado Highway 157 just south of Diagonal Highway in Boulder, will undergo extensive deck repairs, a polyester concrete deck overlay, and other safety improvements. This work will be done during overnight hours to minimize traffic impacts. Rehabilitation on the second bridge on CO 7 in the Town of Lyons will be done during daytime hours and includes scour mitigation and riprap installation.

SCHEDULE & LOCATIONS

The project begins overnight on Tuesday, July 5 with repairs to the Boulder bridge. This work will be performed at night from 9 p.m. to 5 a.m. Sunday to Thursday and will last until mid-November. Work on the Lyons bridge will begin August 1 and last until mid-September. Working hours are 7 a.m. to 6 p.m. Monday to Friday.

The project has two locations: The Boulder bridge is located on CO 157 just south of Diagonal Hwy over the BNSF Railroad at Mile Point 3.52. The Lyons bridge is located on CO 7 over North St.Vrain Creek at MP 32.97.

TRAFFIC & OTHER IMPACTS

Motorists and area residents and businesses can expect single overnight lane closures on CO 157 and occasionally on the roadway below as well as night noise and bright lights during the Boulder bridge repairs. During the Lyons bridge rehabilitation on CO 7, traffic will alternate through a single lane configuration during weekday working hours. After hours, two-way traffic will be separated by a concrete barrier.
