

Colorado Blvd BRT

What Could BRT Look Like?

Enhanced Stations

Enhanced stations typically include design elements that allow passengers to more efficiently get on and off the bus, and technology elements so that passengers waiting at the stop understand when their next bus will arrive.

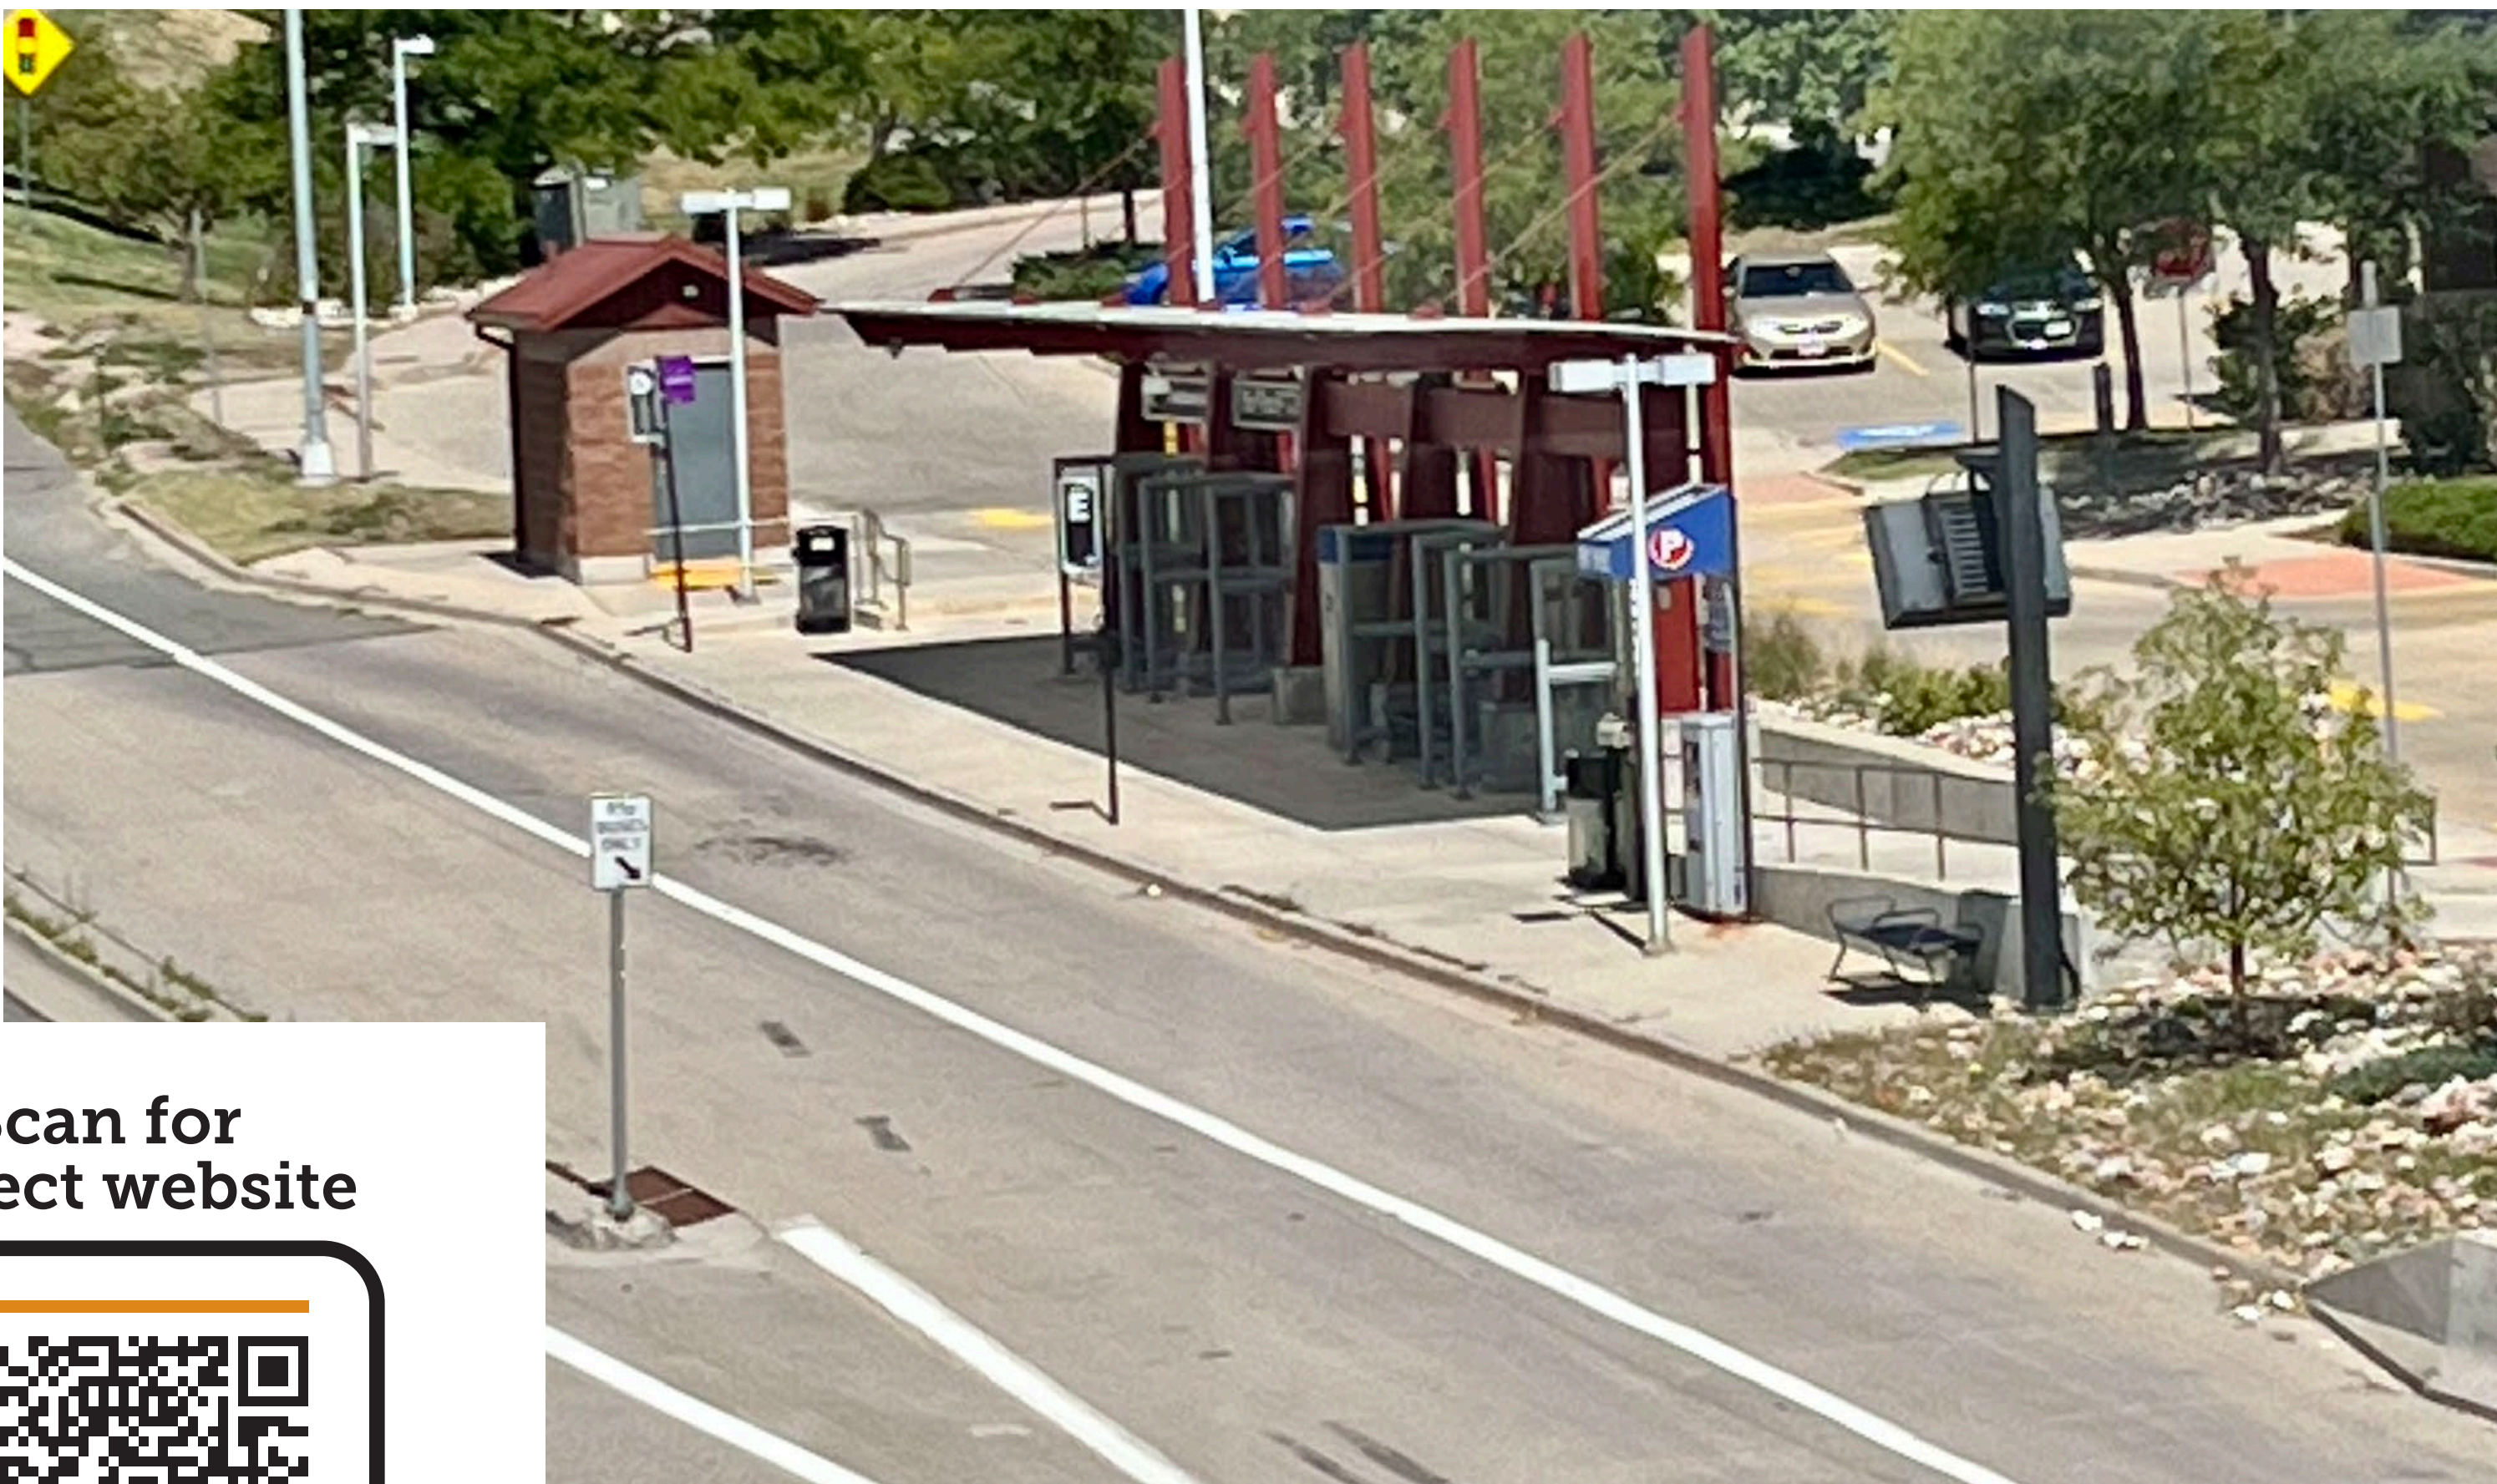

Disclaimer: These are graphic representations of BRT elements and examples of BRTs on other systems. Final BRT elements have not yet been determined and will be different than displayed.

Utah Valley Express, Orem, Utah

Cleveland HealthLine, Cleveland, Ohio

Flatiron Flyer, Boulder, Colorado

Laker Line, Grand Rapids, Michigan
