

Project Process

2020 - 2025

RTD conducts Regional BRT Feasibility Study Identifying Federal Boulevard as one of the top BRT corridors.

2020

Public Engagement

Federal Blvd BRT Project included in Denver Regional Council of Governments' (DRCOG) 2050 Regional Transportation Plan helping the Region improve air quality.

2021

Studies along the corridor identified side-running BRT with more frequent service as the preferred alternative.

2021-2022

CDOT's 10 Year Plan adopted prioritizing investment in Bus Rapid Transit in the Denver Metro Region.

2022

CDOT applies for Federal Transit Administration (FTA) Capital Investment Grant funds for construction of Federal Boulevard BRT.

2024

CDOT launched the Federal Boulevard BRT partnership, initiating engagement with partners and the public while beginning Environmental Analysis and Preliminary Design.

2023

Public Engagement

Public Engagement

CDOT plans to complete environmental analysis, review, and approval process.

CDOT plans to finalize Federal Boulevard BRT engineering design and initiate right-of-way process.

Public Engagement

CDOT plans to construct Federal Boulevard BRT station areas and roadway enhancements.

Proposed Federal Boulevard BRT Service

2030

2025 - 2030
