

Existing Conditions

Safety

- Improving safety is a goal for CDOT and the communities along Federal Boulevard.
- The pie chart illustrates the breakdown of fatal and severely injured crash types from 2018 through 2022. As shown, pedestrian crashes made up the largest portion of fatalities and severely injured crashes.
- Crashes can be influenced by speeding and other unsafe behaviors, lack of safe pedestrian crossing opportunities, lack of safe pedestrian refuges, and visibility.

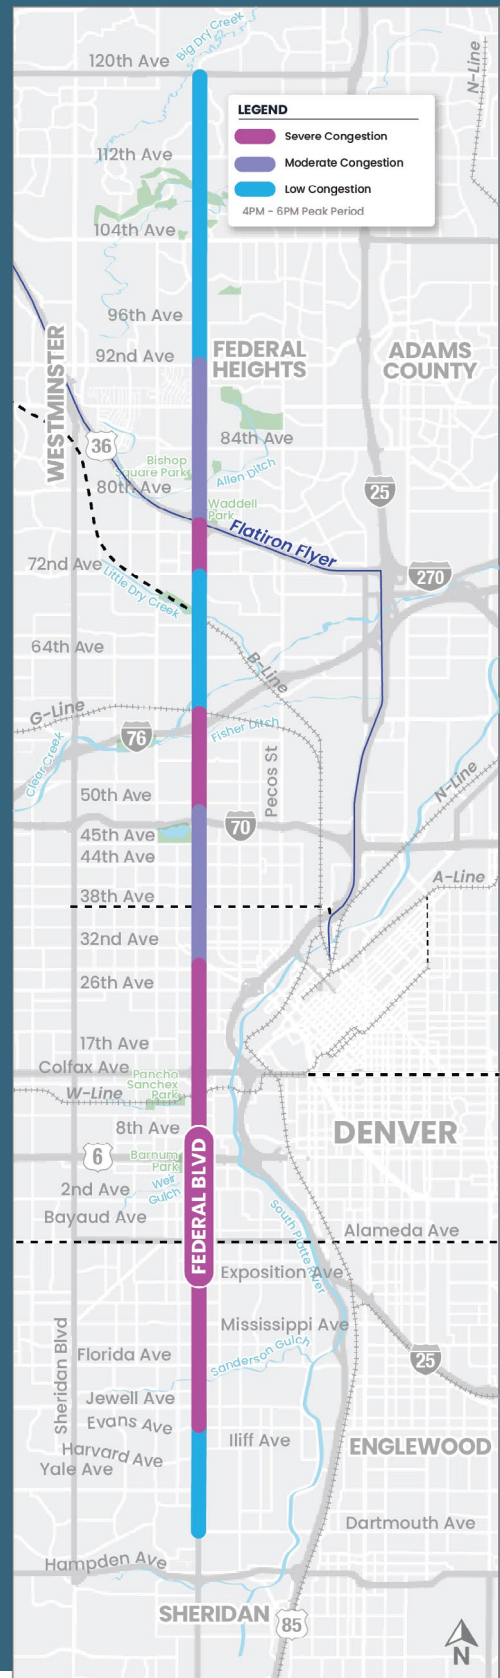

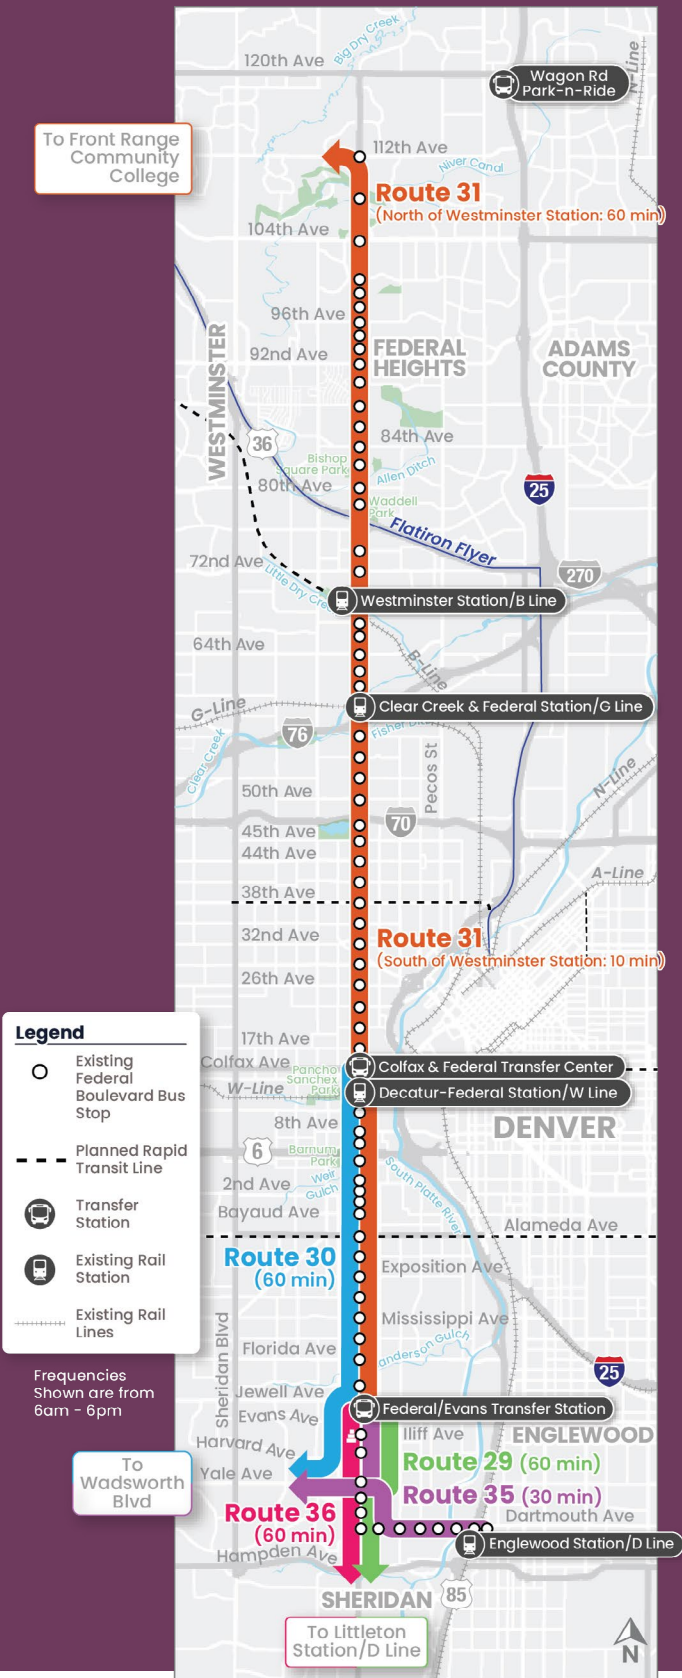

Existing RTD Bus Routes Along Federal Boulevard

(Frequencies Shown are from 6am - 6pm)

Existing Vehicular Congestion Causing Travel Time Delay Along Federal Boulevard

(4PM - 6PM Peak Period)
