

SECTION 6

Response to Letters from Attorneys

As was noted in Section 4, Response to Public Comments, letters were received from three attorneys. Two of the attorneys represent interested parties with land ownership along the I-25 corridor, and the third represents a neighborhood near the corridor. The entities represented by these attorneys are:

- Furniture Row, LLC, a firm operating businesses currently accessed from I-25 via the Corporate Drive exit (exit 148B), represented by the law firm of Kloepper & Gorrell, PC.
- Picolan, Inc., owning the 1,200-acre Northgate Corporate Village development area in the vicinity of the proposed Powers Boulevard connection with I-25 (south of exit 156), represented by the law firm of Hogan & Hartson, LLP.
- The Old North End Neighborhood, a residential area east of I-25, north from

Uintah Street (I-25 exit 142) to approximately Madison Street, represented by the law firm of Merrill, Anderson, King & Harris, LLC.

These three letters are generally longer and more complex than most comments submitted by the general public. In the extreme, the letter from the Old North End Neighborhood was 36 pages long and accompanied by approximately 650 pages of attachments.

In this section, The FHWA response to these three letters from attorneys is structured as it was in Section 4, Response to Agency Comments. That is, the verbatim comments can be read at left, and responses to the comments are provided at right. Some pages of the submittal have been repeated, and labeled as repeated pages, where necessary to demonstrate the correspondence between the comment and the response.
