# PROJECT PUBLIC OUTREACH AREA

# 6TH AVENUE PARKWAY EXTENSION - EA RELEASE

The City of Aurora, in consultation with the Federal Highway Administration (FHWA) and Colorado Department of Transportation (CDOT) is proposing the extension of 6th Avenue Parkway between SH 30 and E-470. An Environmental Assessment (EA) has been prepared, and is available for public review and comment from June 30 through July 30, 2016.

## Public Meeting:

July 14, 2016 at the Beck Recreation Center, 800 Telluride Street, Aurora, CO 80011  
from 6 pm to 8 pm

To view the EA document, appendices and technical reports and submit comments, visit the project website

[www.auroragov.org/6thaveparkway](http://www.auroragov.org/6thaveparkway)

The EA is also available at: [www.codot.gov/projects/studies-assessments/other-cdot-studies](http://www.codot.gov/projects/studies-assessments/other-cdot-studies) for public download and viewing. In addition, hard copies of the EA will be made available during the public comment period at the following locations:

City of Aurora Public Library  
14949 East Alameda Parkway  
Aurora, CO 80012

Arapahoe County  
Administration Building  
5334 S. Prince Street  
Littleton, CO 80120

CDOT Region 1  
2000 South Holly Street  
Denver, CO 80222

City of Aurora  
15151 E. Alameda Parkway  
Public Works Suite 3200 & Planning Suite 2300  
Aurora, CO 80012

Arapahoe County Public Works  
6924 S. Lima Street  
Centennial, CO 80112

FHWA is also providing the public the opportunity to review and comment on how the project will affect and mitigate the Environmental Day Camp.

---

Dear Community Partner,

The Environmental Assessment (EA) for the 6<sup>th</sup> Avenue Parkway Extension has now been completed, and is available for public review and comment through July 30, 2016. The EA provides a detailed evaluation of the Proposed Action (labeled Alternative 2A during the screening process) and compares this with the No Action Alternative.

We have updated the project website: [www.auroragov.org/6thaveparkway](http://www.auroragov.org/6thaveparkway) to include current information and downloads of the EA and appendices. The website also provides information on ways to comment on the EA; we welcome your input.

We have scheduled a Public Open Meeting for July 14 from 6pm – 8pm at the Beck Recreation Center, as described in the notice below. We welcome your participation.

## 6TH AVENUE PARKWAY EXTENSION - EA RELEASE

The City of Aurora, in consultation with the Federal Highway Administration (FHWA) and Colorado Department of Transportation (CDOT) is proposing the extension of 6th Avenue Parkway between SH 30 and E-470. An Environmental Assessment (EA) has been prepared, and is available for public review and comment from June 30 through July 30, 2016.

### Public Meeting:

July 14, 2016 at the Beck Recreation Center, 800 Telluride Street, Aurora, CO 80011  
from 6 pm to 8 pm

To view the EA document, appendices and technical reports and submit comments, visit the project website

[www.auroragov.org/6thaveparkway](http://www.auroragov.org/6thaveparkway)

The EA is also available at: [www.codot.gov/projects/studies-assessments/other-cdot-studies](http://www.codot.gov/projects/studies-assessments/other-cdot-studies) for public download and viewing. In addition, hard copies of the EA will be made available during the public comment period at the following locations:

City of Aurora Public Library  
14949 East Alameda Parkway  
Aurora, CO 80012

Arapahoe County

**Obituary**

**MaryAnn Stagg**  
February 20, 1936 - June 10, 2016

Mary Ann (Agan) Stagg of Florence, Arizona died June 10, 2016. Born in Manilla, Iowa in 1936, she grew up in Ely, Nevada.

MaryAnn was preceded in death by parents Frank and Evelyn Agan. She is survived by husband Lynn Stagg, sisters Carol Walso and Betty Spradlin; children: David Bacca, Kathleen Dailey, Melody Willink, Theresa LeGare, nine grandchildren and 11 great grandchildren. She worked at United Airlines 20 years and loved traveling in her motor home.

A memorial service will be scheduled at a later date.

**Obituary**

**George Wesley Chafey**  
October 10, 1941 - May 31, 2016

George W. Chafey, 74, passed away unexpectedly over Memorial Day weekend. He was born October 10th, 1941 in Neptune, New Jersey and was preceded in death by his mother, Mary (Wynn), his sister Gail and his wife, Linda Stine. George and Linda moved to the Denver area

in 1988 and eventually settled in Aurora, much to the delight of Linda's extended family in Colorado.

We will miss George's delightful sense of humor, mischievous laugh, thoughtfulness and innate kindness. He is survived by his children Clarissa (Samori), Justin and Candice, siblings Marion Legier, David (Dianne), and Mary Ellen Patterson, 5 grandchildren, numerous nieces, nephews and in-laws, and his canine companion, Hunter. Rest in peace, George! We know Linda is happy to have her George back. Contributions may be made to the Dumb Friends League in George's name at [www.ddfl.org](http://www.ddfl.org).

# JACKSON TROUNCES NELSON FOR DEMOCRATS' NOD IN HD42

**BY QUINCY SNOWDON**  
Staff Writer

**D**ominique "Nikki" Jackson, a communications consultant and member of Aurora's Citizens Advisory Committee for Housing and Community Development, won the Democratic primary for state House District 42 Tuesday, handily trouncing her embattled challenger Eric Nelson.

As of Wednesday morning, the Colorado Secretary of State's Office reported that Jackson had received a whopping 71.39 percent of the 3,617 votes counted. Nelson yielded 1,035 votes, or 28.61 percent of the total.

Jackson declared victory on Twitter shortly after the initial results were unveiled, writing "Thank you House District 42! We Won!!!"

She said that she celebrated her victory with several constituents at a gathering Tuesday night in Aurora.

"I am humbled and honored to have their votes and to have the votes of the people of House Dis-

trict 42," she said.

Jackson's victory marks the end of a Nelson campaign that became mired in controversy two weeks ago after media reports alleged the Aurora Public Schools Board of Education member fibbed several credentials listed on his résumé and misrepresented multiple details about his military service and criminal history.

In wake of the allegations, Nelson refused to drop out of the race despite multiple calls to do so from several notable Democrats, including incumbent HD 42 Rep. Rhonda Fields and Speaker of the State House Dickey Lee Hullinghorst, D-Boulder. The allegations have also caused a majority of APS school board members to call for Nelson's resignation from his position on that board, though Nelson has repeatedly refused to surrender his seat.

On top of accruing several notable endorsements from current

and former metro-area politicos, Jackson far out-fundraised Nelson, bringing in about \$21,000 more than the APS board member, according to the latest campaign finance reports filed Monday.

Jackson will now face Republican Mike Donald, who works for a private security company in Aurora, in the November election. Donald ran for the same seat against Fields in 2012 and 2014, but handily lost in both races.

Jackson said that her strategy will remain unchanged now that she has moved past the primary.

"I am going to continue to speak to the voters to hear what their thoughts, their concerns (and) their hopes are," Jackson said. "And I am going to continue to promise to fight to make sure that every single one of them is heard."

Nelson did not immediately respond to requests for comment.

**Jackson**

**Nelson**

# Educators convene at APS for summit focused on digital badging

**BY QUINCY SNOWDON**  
Staff Writer

**M**ore than 160 educators and administrators from around the world flocked to Aurora Friday to learn more about how cities and school districts are implementing digital badging, an increasingly popular initiative that gives kids unofficial credentials for learning various skills.

In a first-of-its-kind event for Aurora Public Schools, the district's recent Digital Badge Summit was intended to help educators and industry professionals learn about badging programs around the world — from Aurora to the United Kingdom.

"(The Badge Summit) gives us time to listen to the biggest thinkers around badging and helps us understand where we are on the right path, and where we're not," said John Youngquist, chief academic officer at APS.

Available to students in APS for about the past year, the program awards students digital accolades for finishing projects that demonstrate skills like critical thinking, invention and leadership, according to the district website.

APS has sunk significant resources into developing a districtwide badging program in recent years, culminating in the launch of a pilot program in the spring of 2015. Though adoption was slow at first, the district had issued 8,822 badges to 5,838 APS students by the end of last school year, according to Charles Dukes, director of APS' postsecondary workforce readiness program.

By contrast, the city of Chicago dispensed nearly 100,000 badges during a novel summer program in 2013, according to press release from Mayor Rahm Emanuel's office. Nichole Pinkard, a professor at DePaul University in Chicago and a preeminent voice on badging in education, spoke about the implementation of badges in Chicago at the recent summit.

Part of APS Superintendent Rico Munn's long-standing vision for the district, the APS badging program has been pushed forward since Munn came to the district in 2013. But to Munn and other APS ad-

ministrators like Kevin Riebau, APS' director of educational technology, badges are merely a means to an end. While relatively trivial themselves, the hope is that the digital credentials give students a chance to experience or even enter the workforce at an early age, according to Riebau.

"Because of the vision of our superintendent, our money ball is not the digital badge, but the connections that makes for our students," he said. "It's not earning the badge, it's what are you actually doing with it to create a pipeline between school and jobs."

Currently, the district has partnered with 22 local organizations that offer job shadow or potential internship opportunities to APS students. Partner organizations include: local auto repair shop AutoPros, Boulder Engineering Studio and the American Museum of Western Art, according to Josh Kusch, specialist for programs and partnerships with APS. Students are able to earn different shadowing and educational opportunities at those companies based on the badges they accrue.

Despite the recent progress, adoption of the badging process has been spotty in APS, according to Dukes, with only about 20 schools across the district truly participating. However, Dukes said that recent statistics lead him to believe the program will proliferate next school year.

"We have about 169 summit badges meaning that students went through all the steps to get that highest badge," Dukes said. "Last year we had zero, and by December (2015) we only had one. So students are really activating and starting to engage."

The summit badge is awarded to students who earn all of the lesser credentials available in the district.

Increasing that adoption rate starts with teachers, according to Steve Clagg, chief information officer for APS. Clagg said that though some teachers are skeptical about offering badges in their classroom, feedback among those who have participated has been positive.

"Some teachers are a little hesitant to do badging, but there are others that become really passionate," he said. "If a teacher gets behind it, suddenly things explode in school districts. If teachers are not behind it, we have challenges. I believe we've gotten to a point where we're at that precipice."

## 6TH AVENUE PARKWAY EXTENSION - EA RELEASE

The City of Aurora, in consultation with the Federal Highway Administration (FHWA) and Colorado Department of Transportation (CDOT), is proposing the extension of 6th Avenue Parkway between SH 30 and E-470. An Environmental Assessment (EA) has been prepared, and is available for public review and comment from June 30 through July 30, 2016.

Join us for a public meeting on Thursday, July 14, 2016, at the Beck Recreation Center, 800 Telluride Street, Aurora, CO 80011 from 6 pm to 8 pm, to review, discuss, and comment on the EA.

Visit the project website to view the EA document, appendices and technical reports, submit comments, and find locations where the EA is available.

[www.auroragov.org/6thaveparkway](http://www.auroragov.org/6thaveparkway)

FHWA is also providing the public the opportunity to review and comment on how the project will affect and mitigate the Environmental Day Camp.

# WELCOME

TO THE

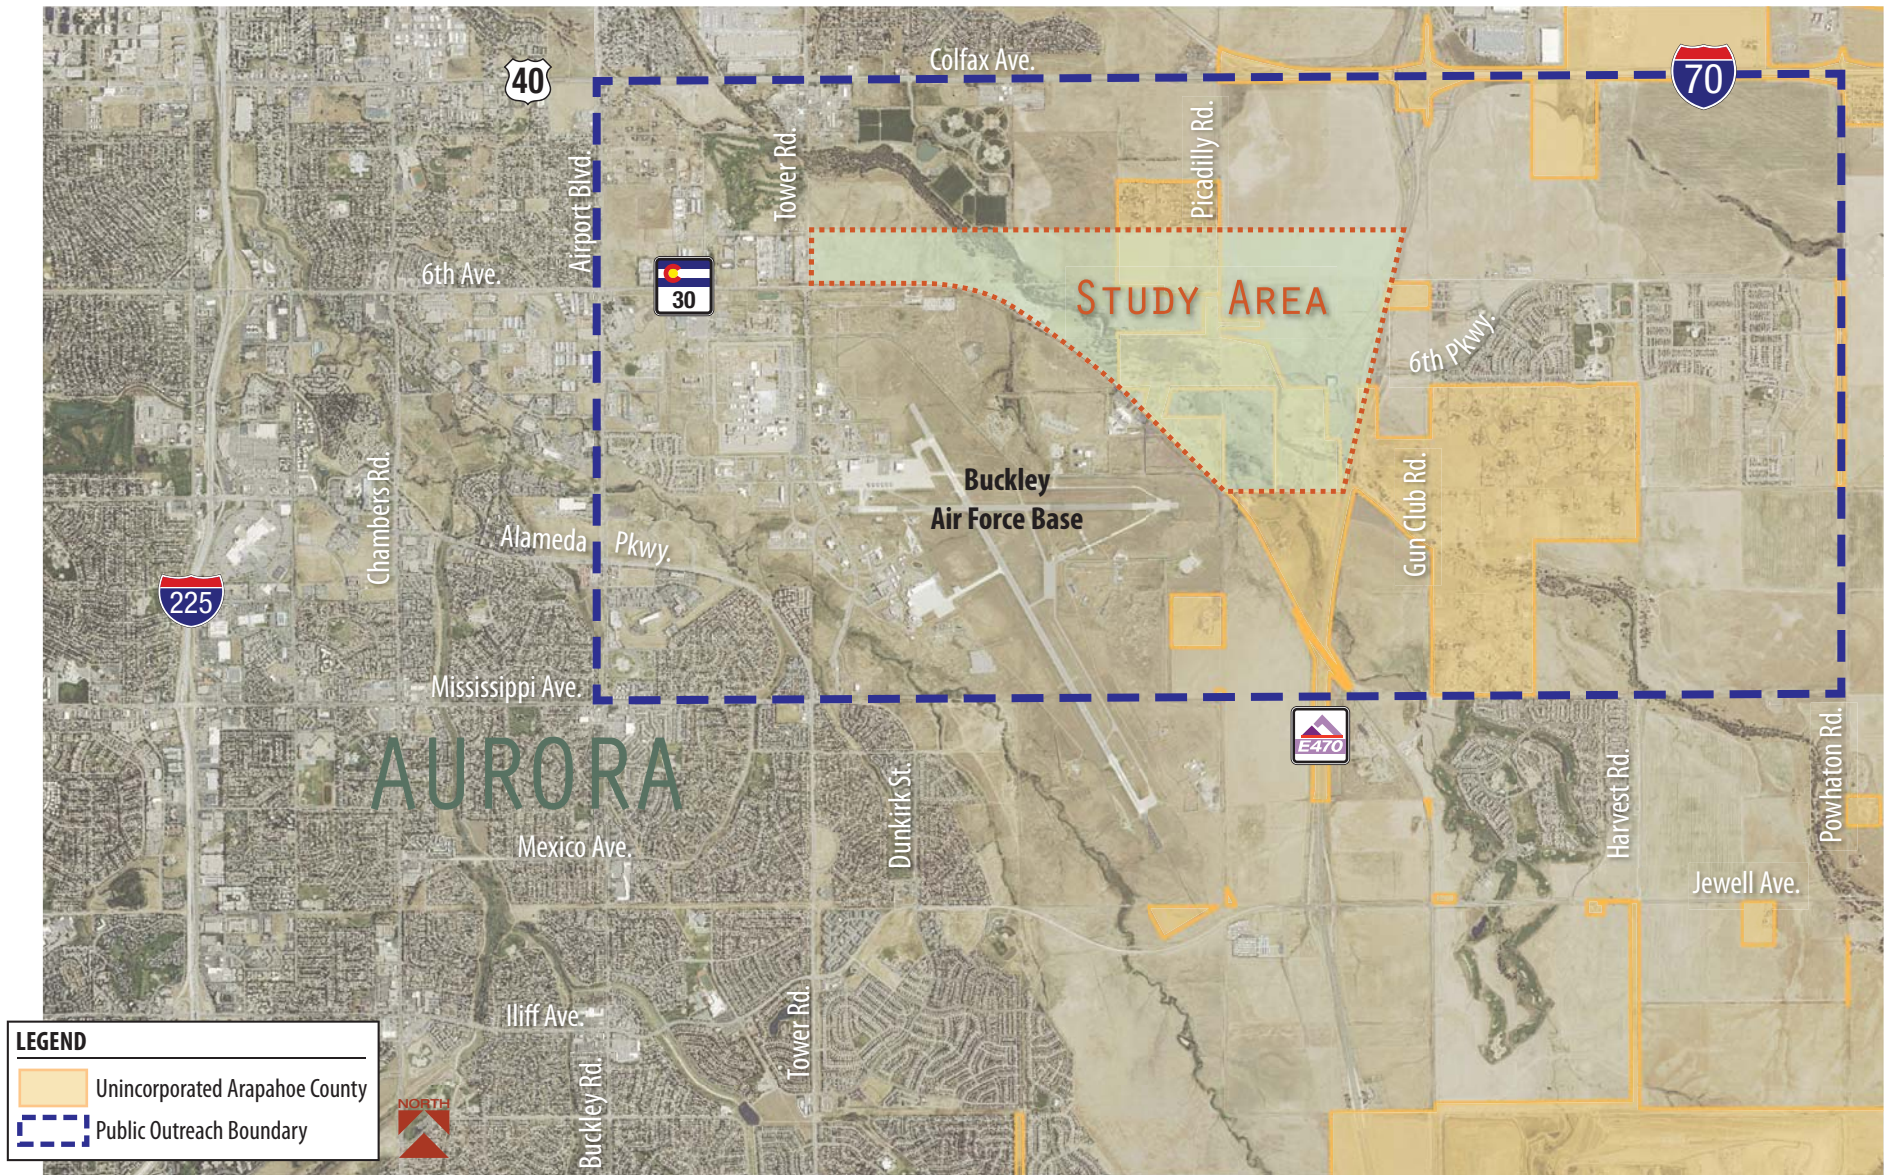

## 6<sup>TH</sup> AVENUE PARKWAY EXTENSION ENVIRONMENTAL ASSESSMENT PUBLIC MEETING

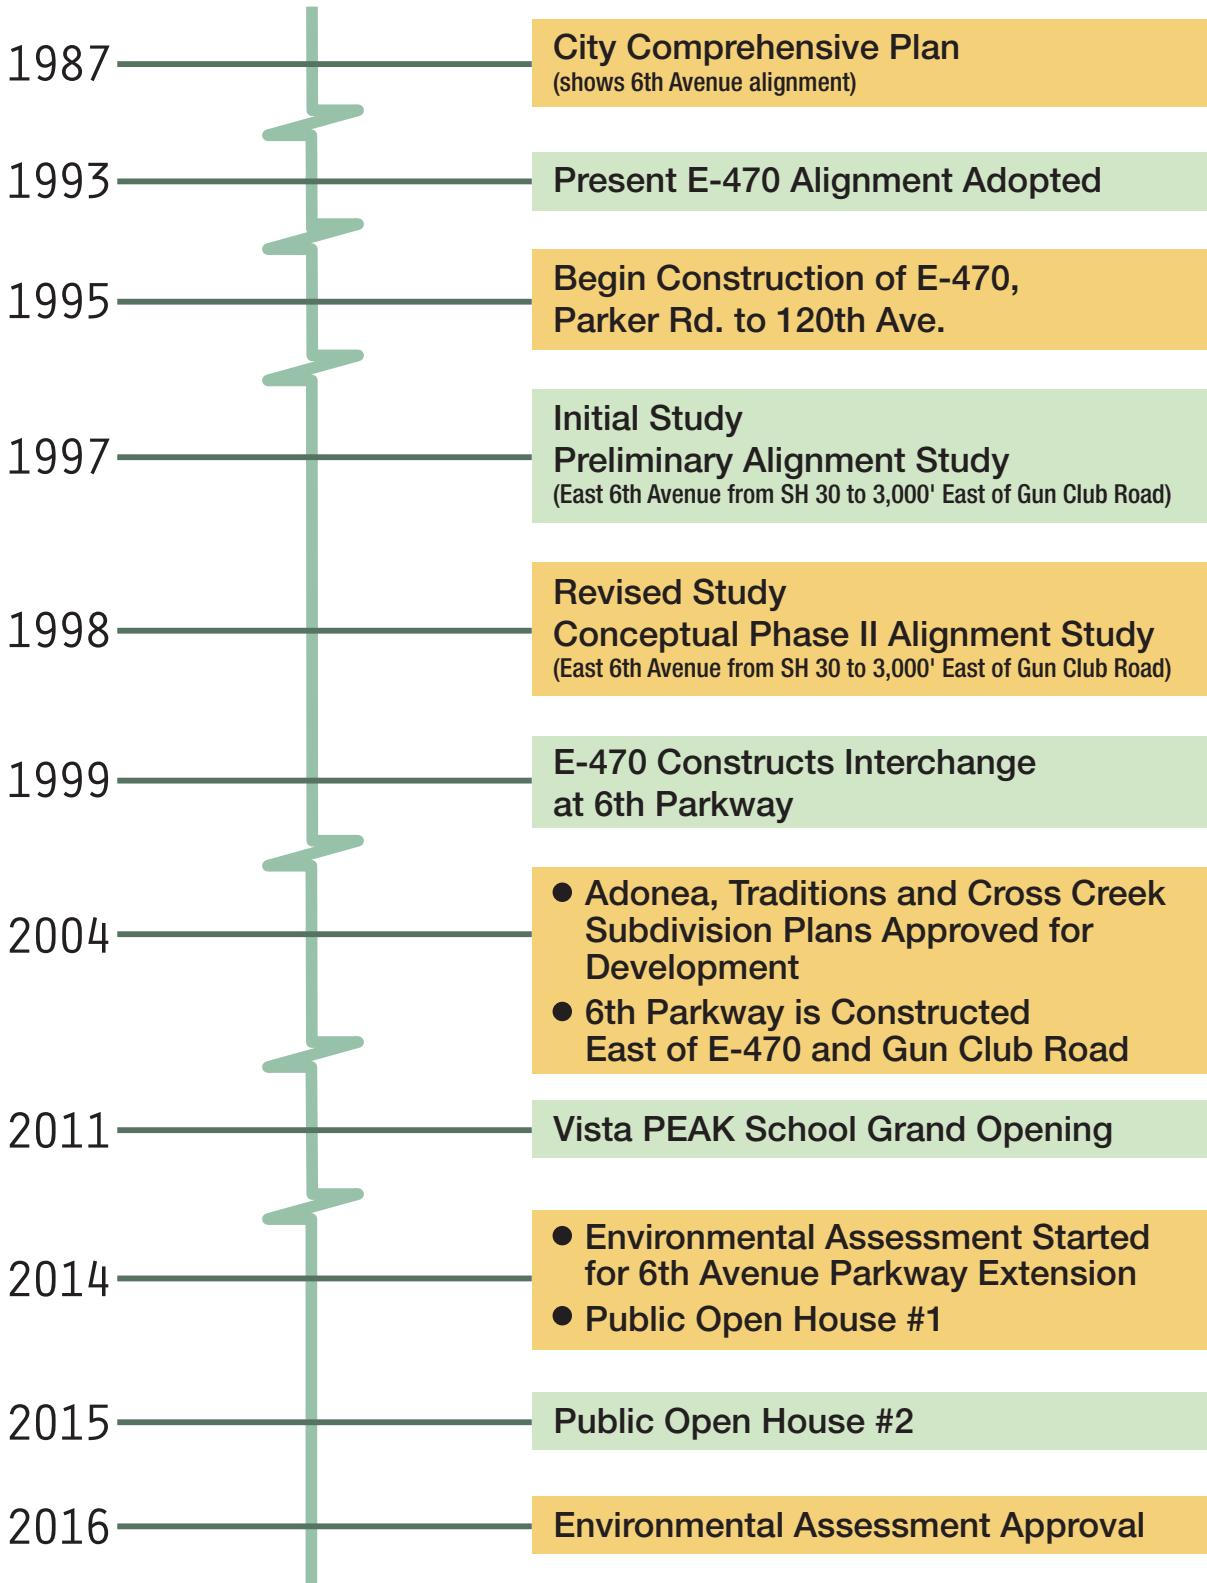

07 | 14 | 2016

# PROJECT PUBLIC OUTREACH AREA

# PROJECT HISTORY

# PROJECT PURPOSE

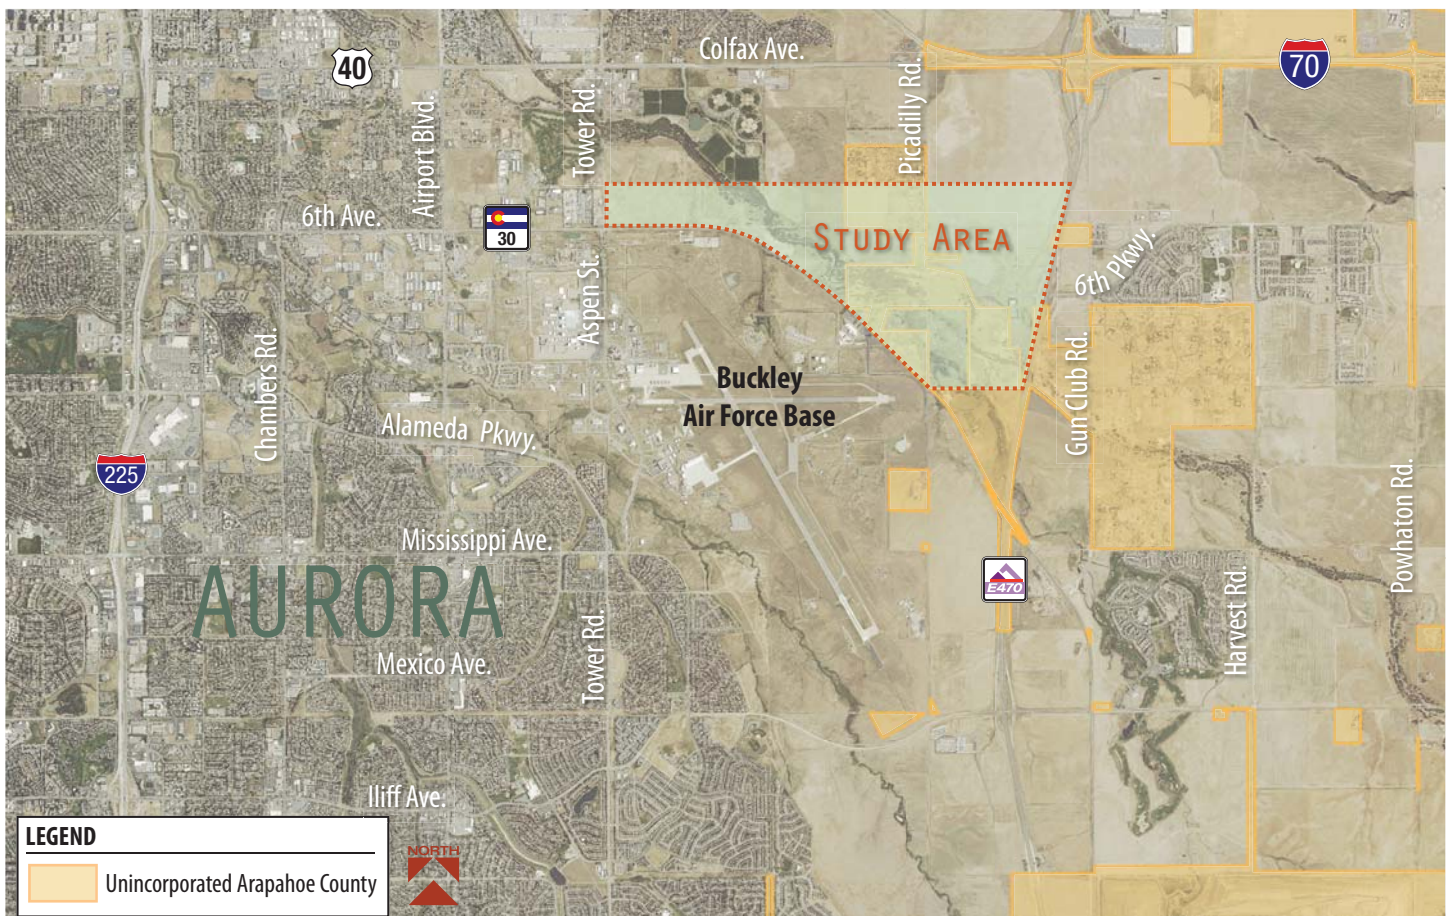

The purpose of the project is to enhance east-west mobility by implementing a transportation solution that will close a critical gap between SH 30 and E-470 in the regional transportation network of northeastern Aurora.

# PROJECT NEED

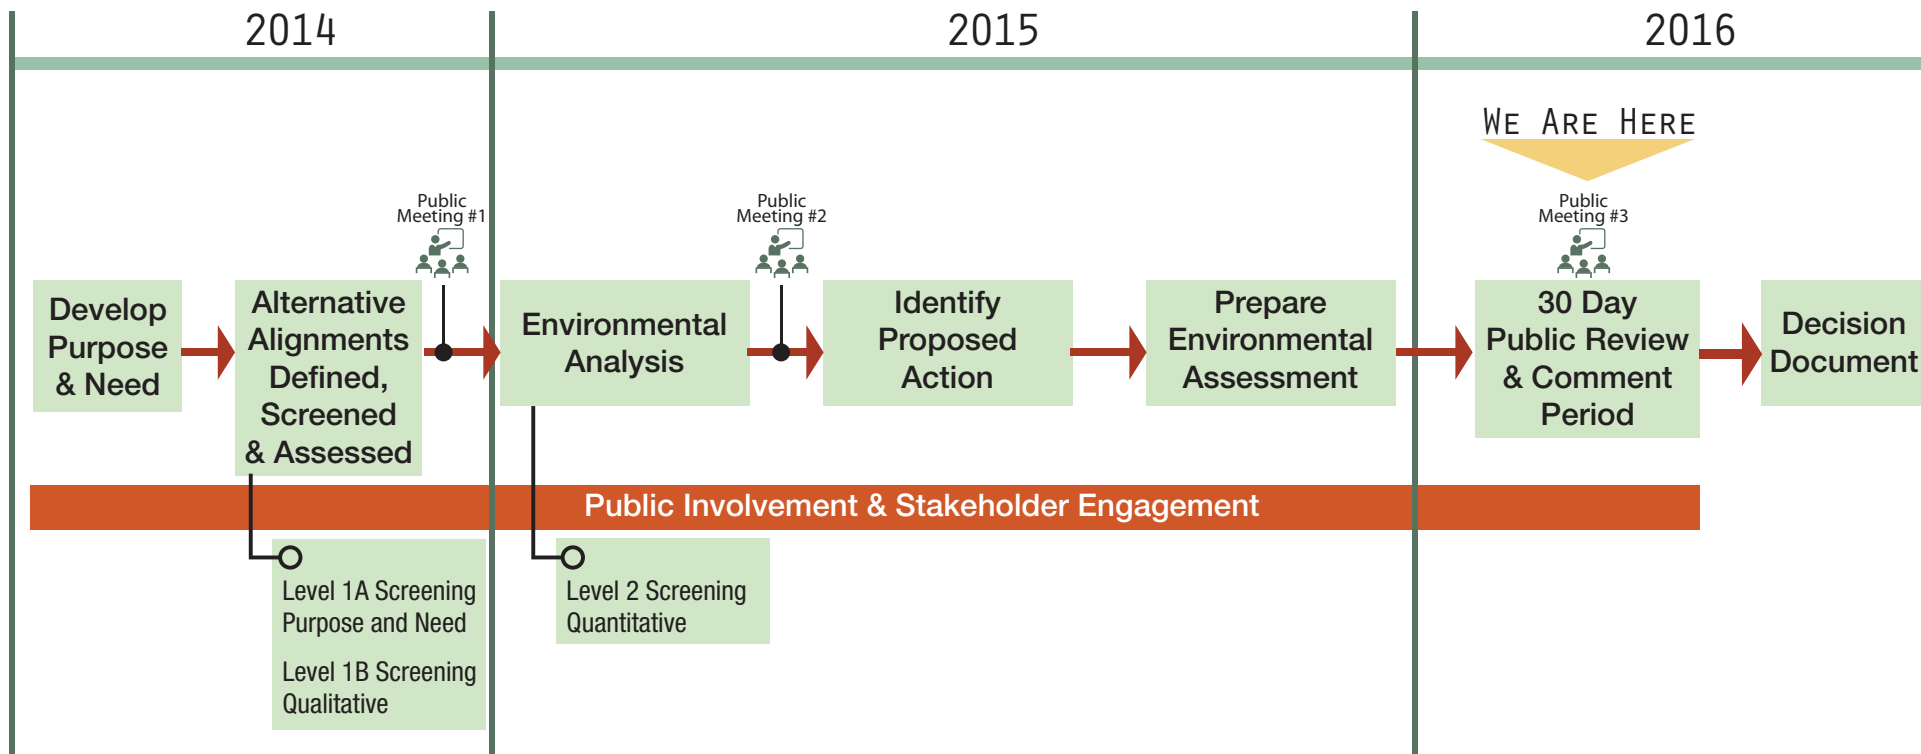

There is:

- lack of connectivity and an efficient transportation link in the Aurora arterial system.
- excessive travel time and vehicle miles traveled for motorists and emergency vehicles.
- insufficient infrastructure to support existing and future multimodal connectivity.
- inadequate transportation infrastructure to respond to planned development.

# STUDY AREA

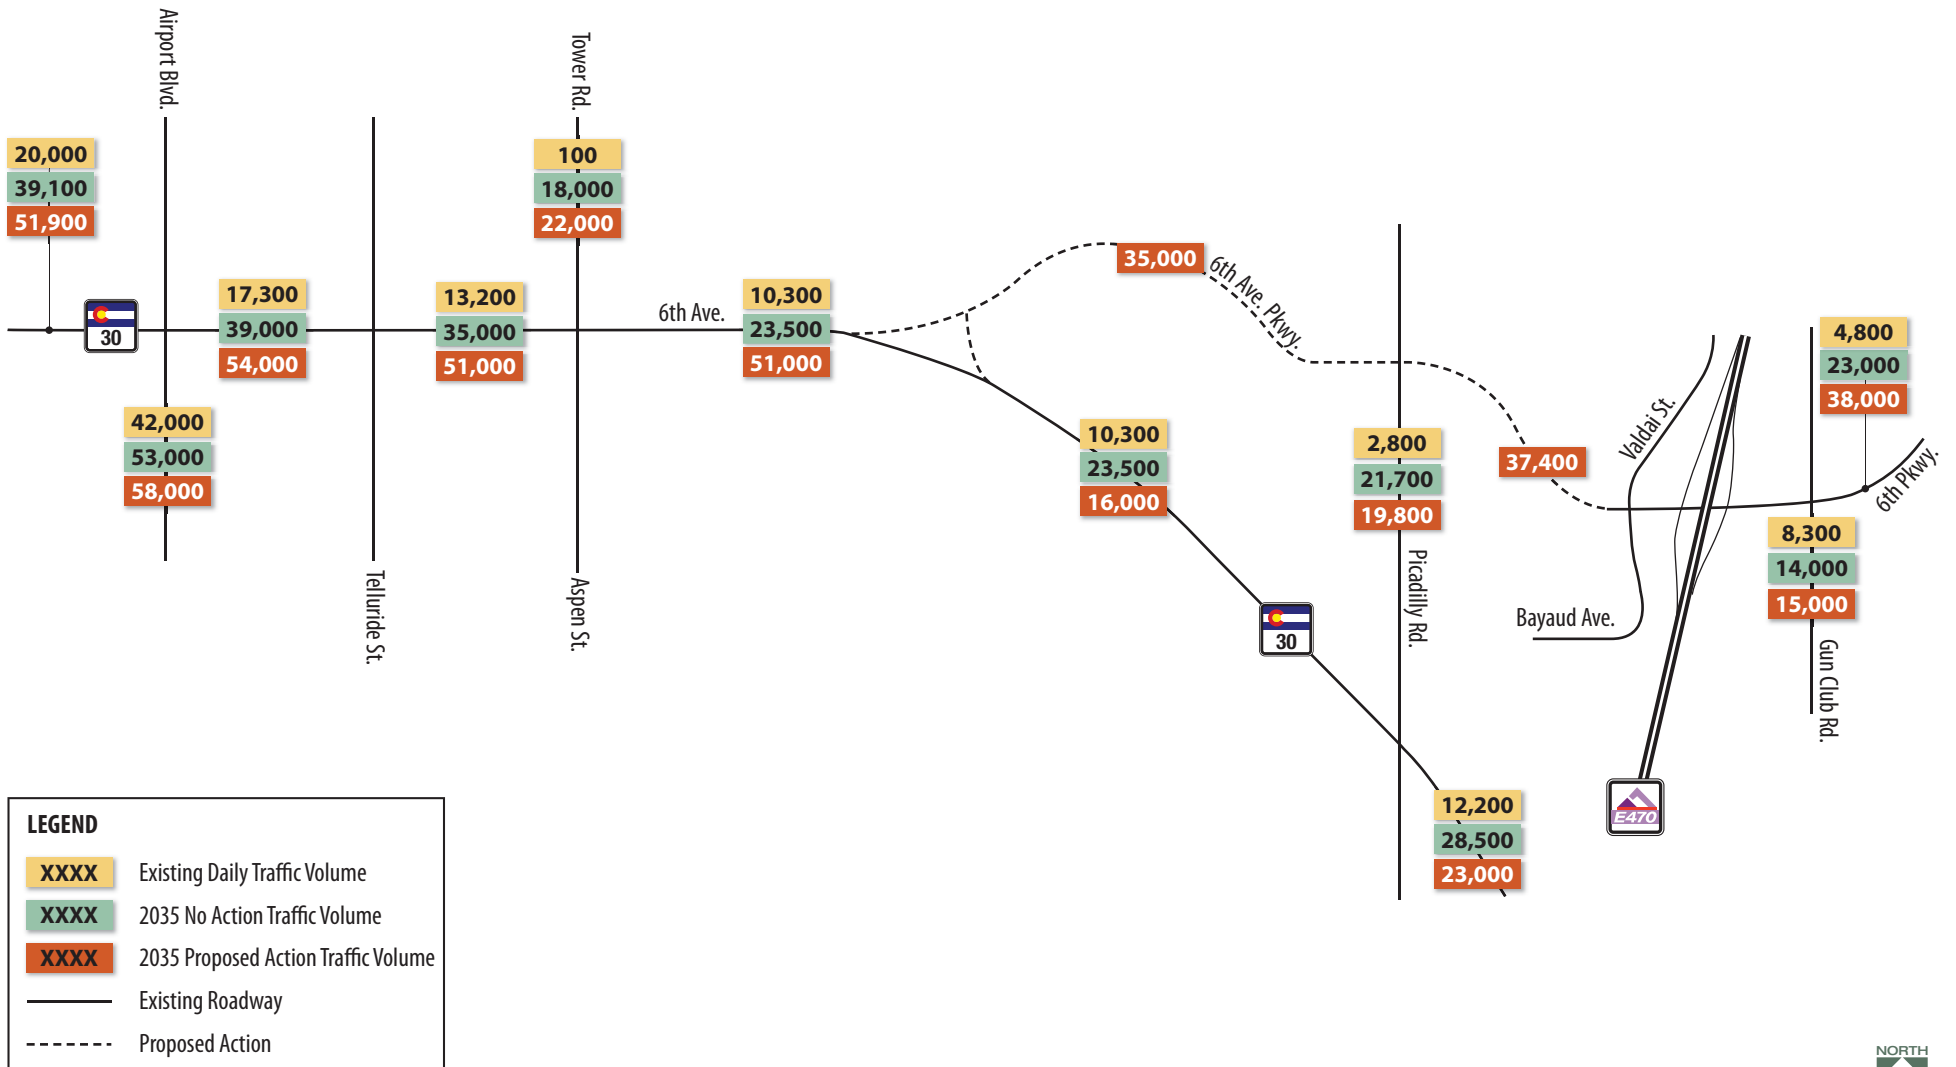

# NEPA SCREENING PROCESS

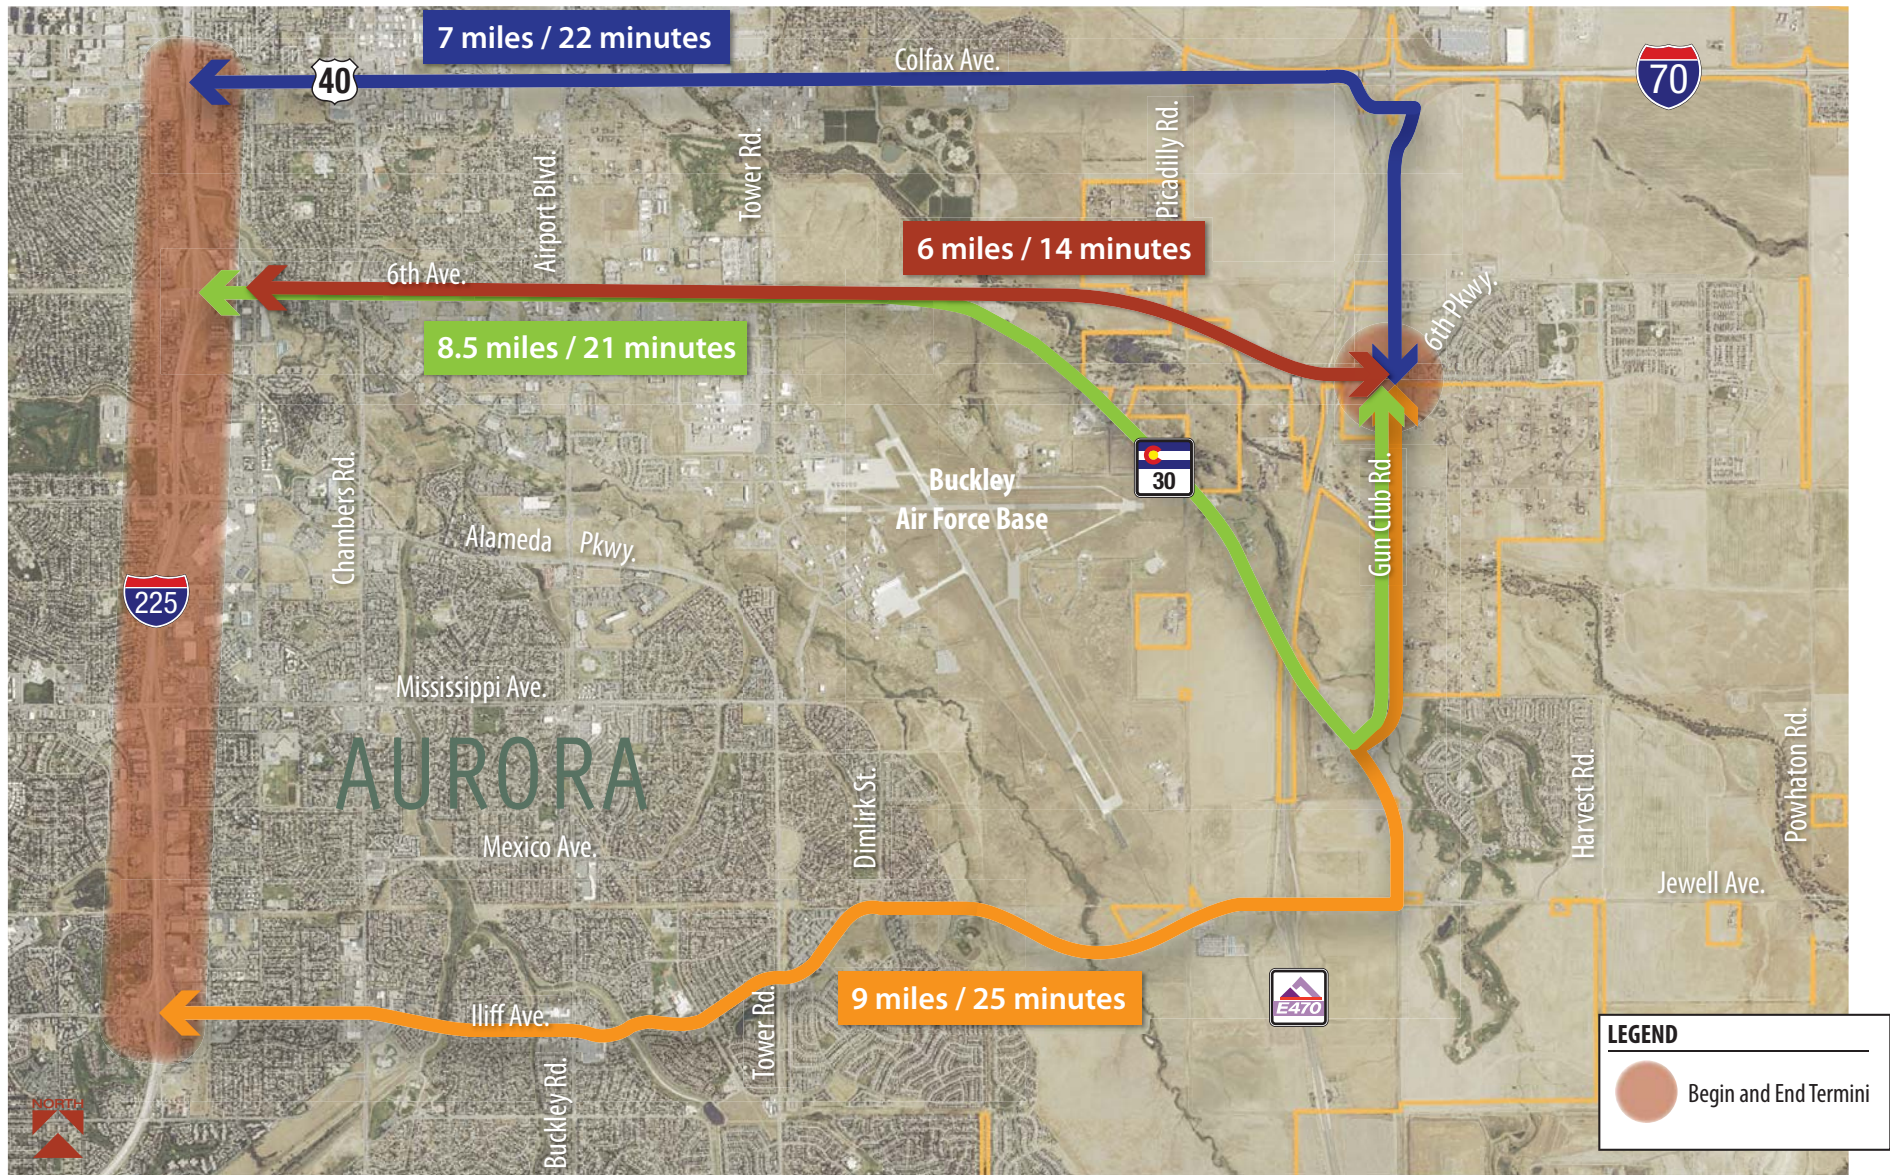

For projects receiving or applying for federal funds, the National Environmental Policy Act (NEPA) must be followed. In this case through preparation of an Environmental Assessment.

# TRAFFIC VOLUMES

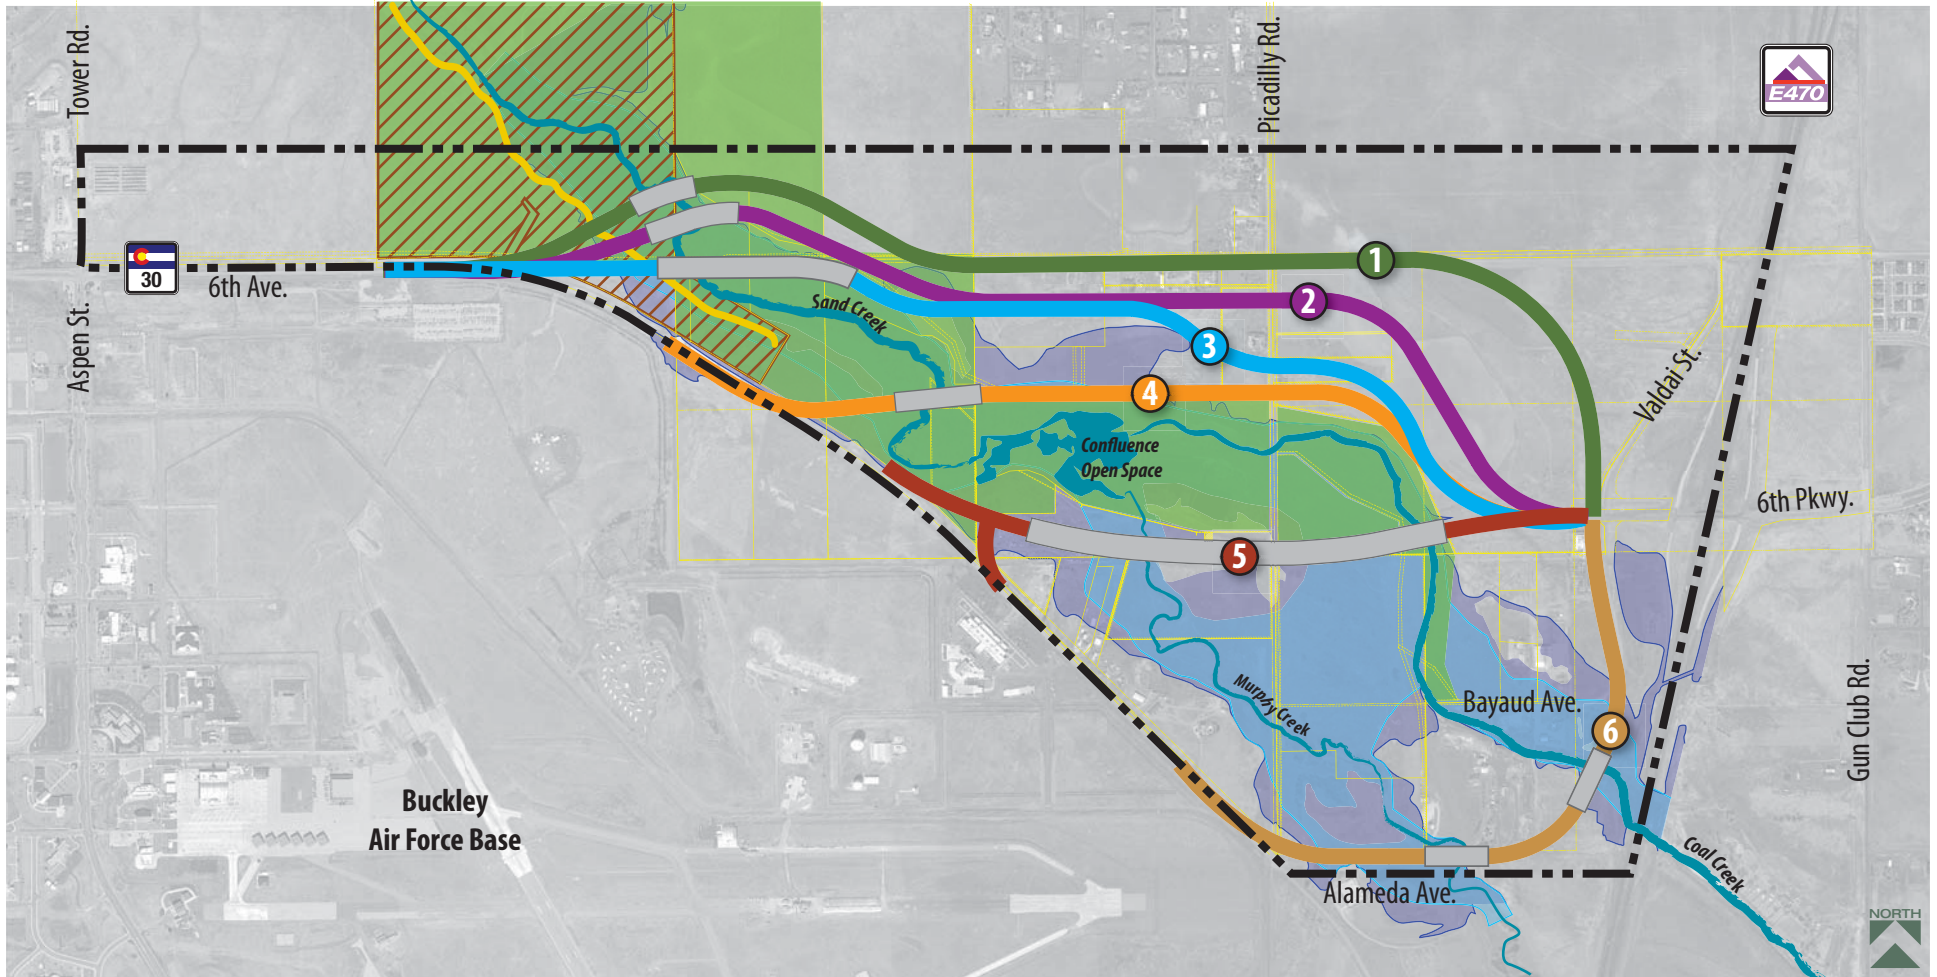

# TRAVEL DISTANCE & TIME COMPARISON

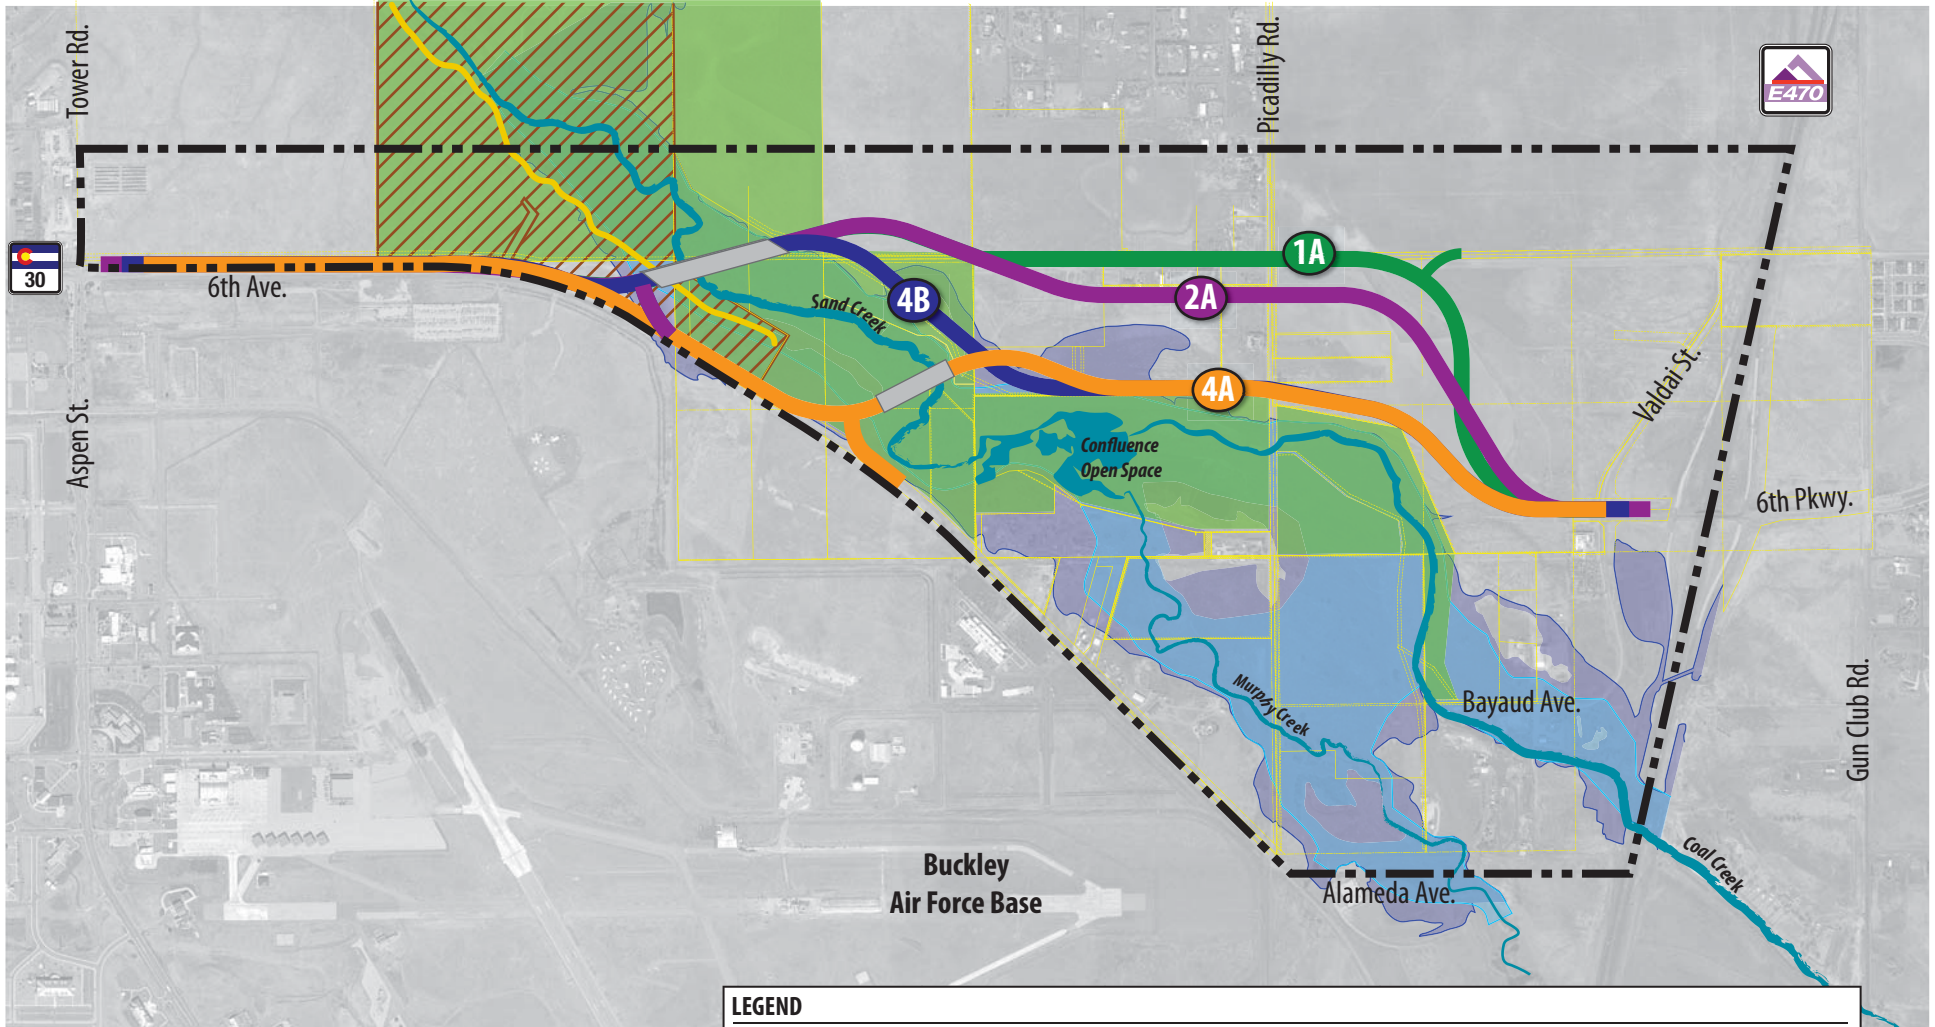

# LEVEL 1 ALTERNATIVE ALIGNMENTS

LEGEND			
	Study Area Limits		Potential Bridge Structure
	Parks, Recreation, and Open Space		Alternative
	Triple Creek Trail		4(f) and 6(f) Areas
	Floodplain		Floodway

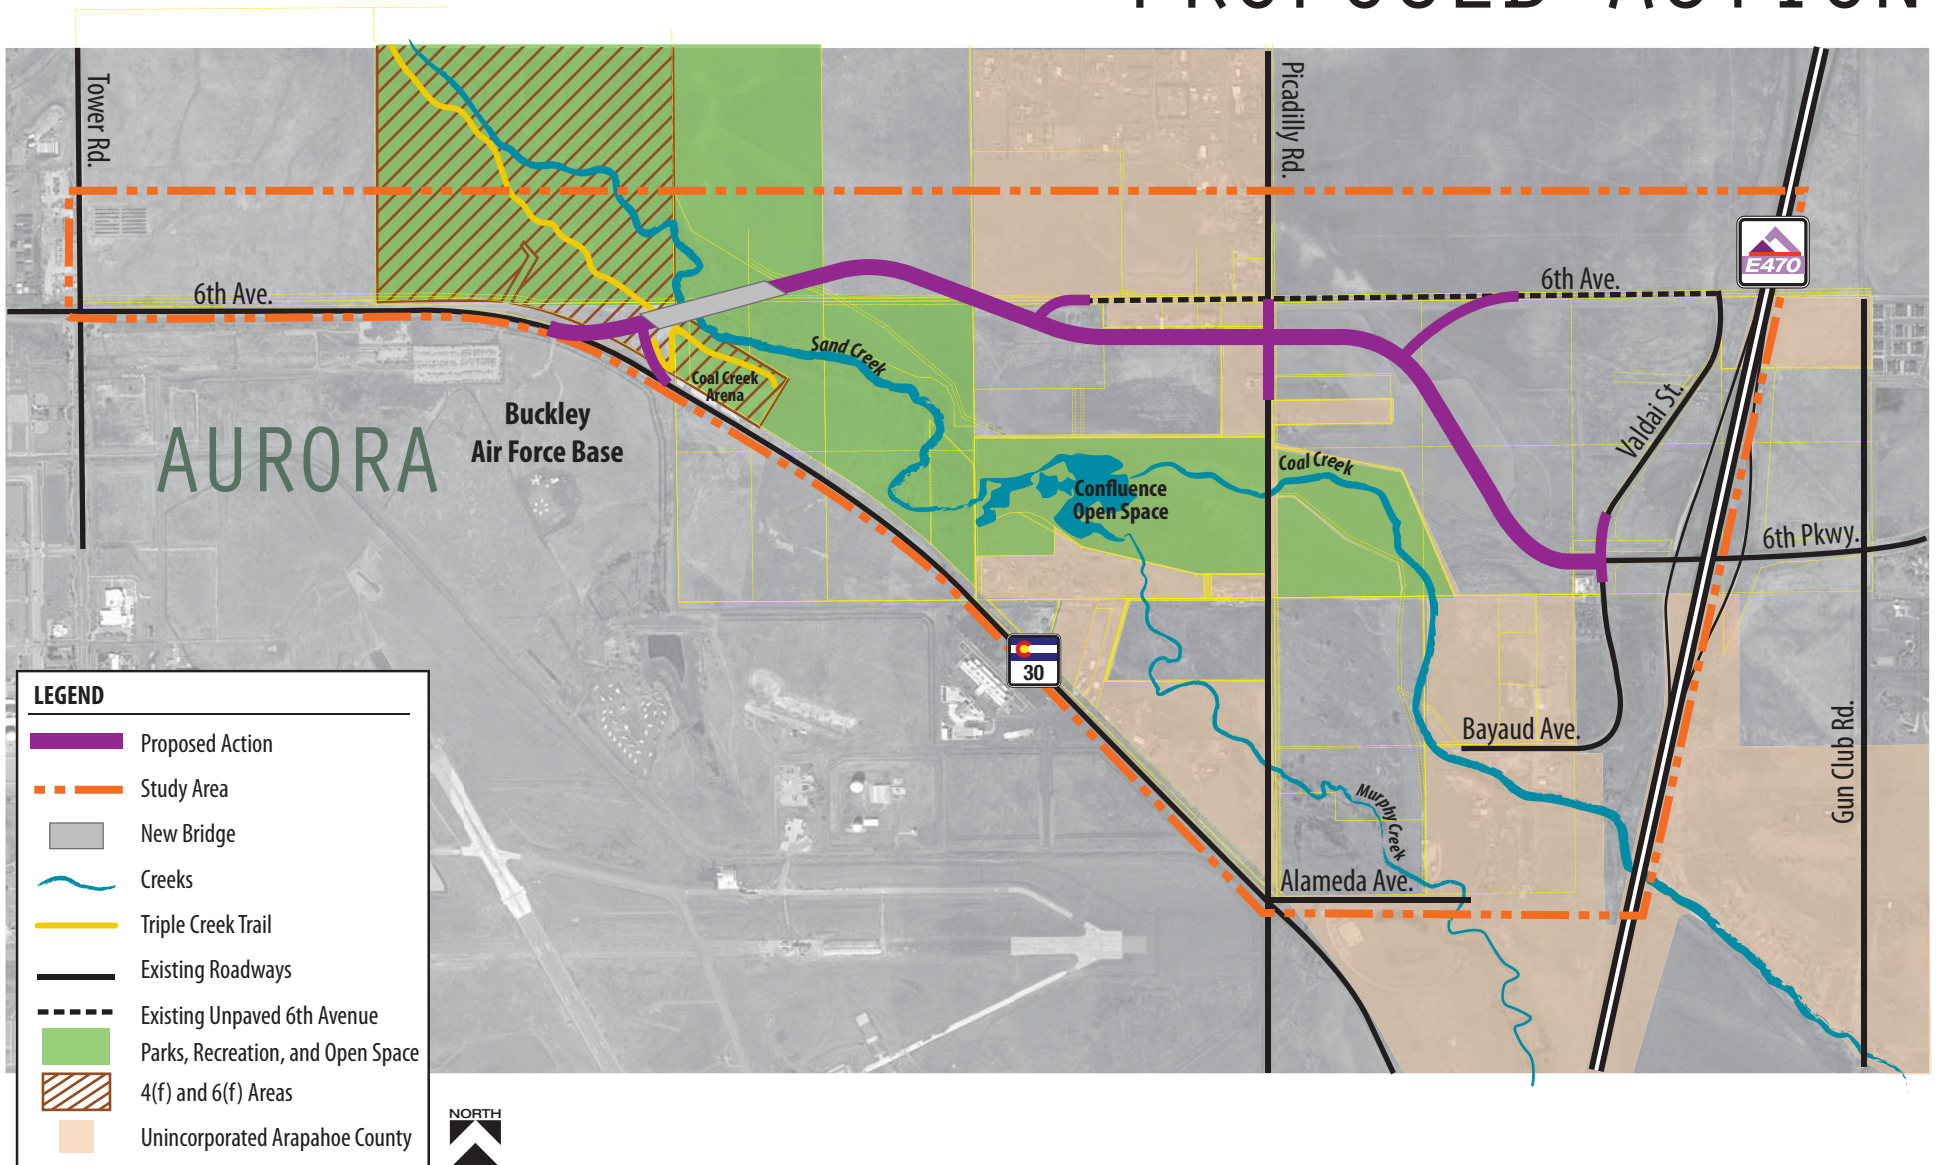

# LEVEL 2 ALTERNATIVE ALIGNMENTS

LEGEND			
	Study Area Limits		Potential Bridge Structure
	Parks, Recreation, and Open Space		Alternative
	Triple Creek Trail		Floodplain
	4(f) and 6(f) Areas		Floodway

# PROPOSED ACTION

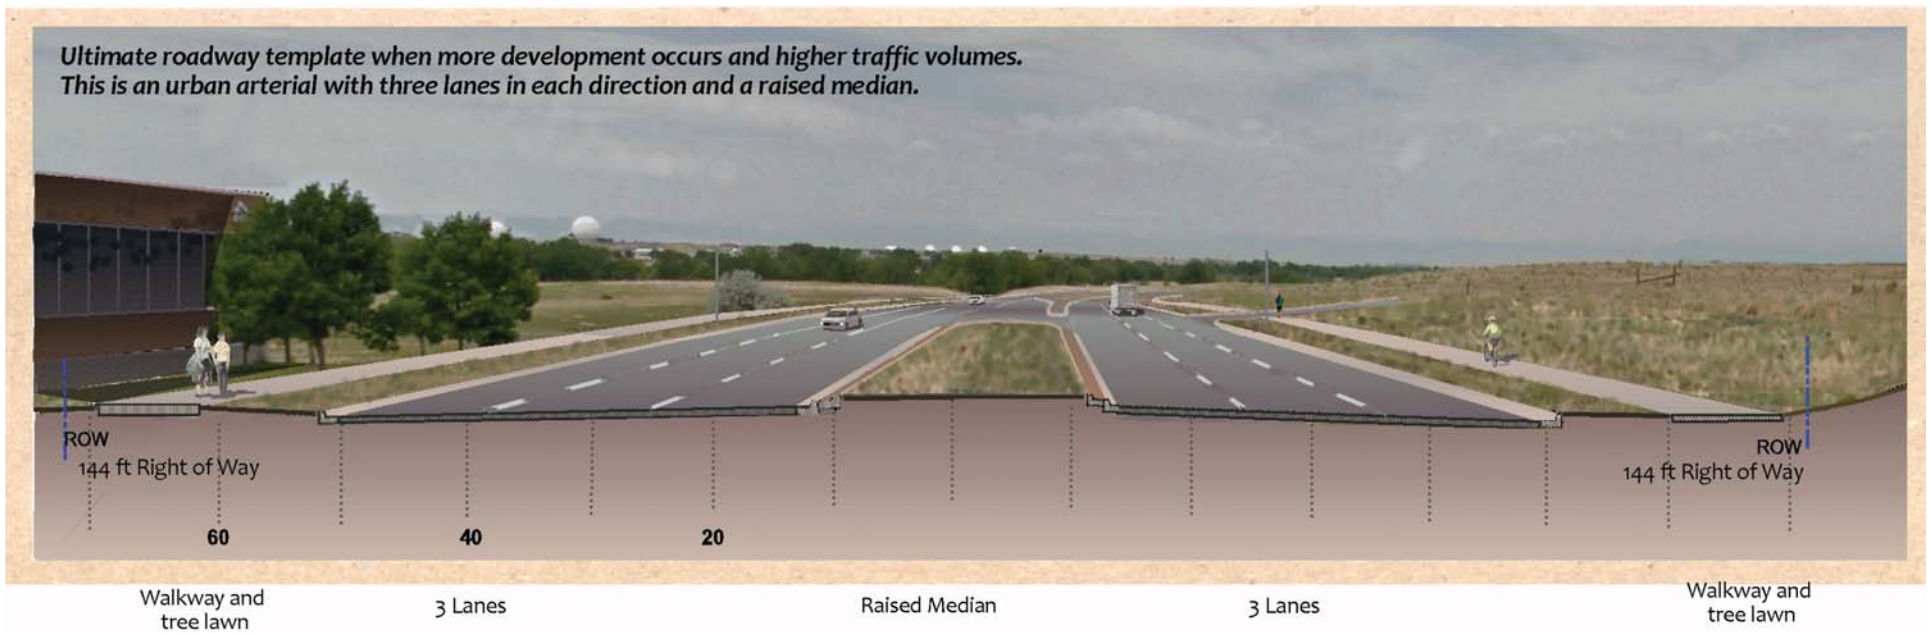

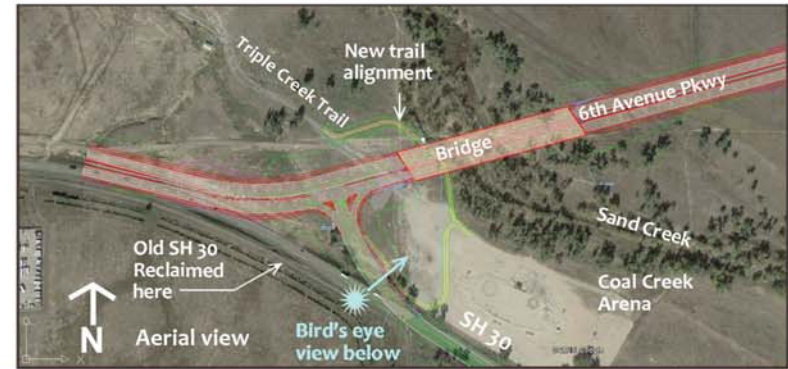

# CROSS SECTION

## RENDERING OF FUTURE ROADWAY

*Ultimate roadway template when more development occurs and higher traffic volumes.  
This is an urban arterial with three lanes in each direction and a raised median.*

# SIMULATED VIEW OF SH30/6TH AVE. PKWY. & BRIDGE

Simulated bird's eye view of bridge over Sand Creek and SH 30/6th Avenue Parkway intersection

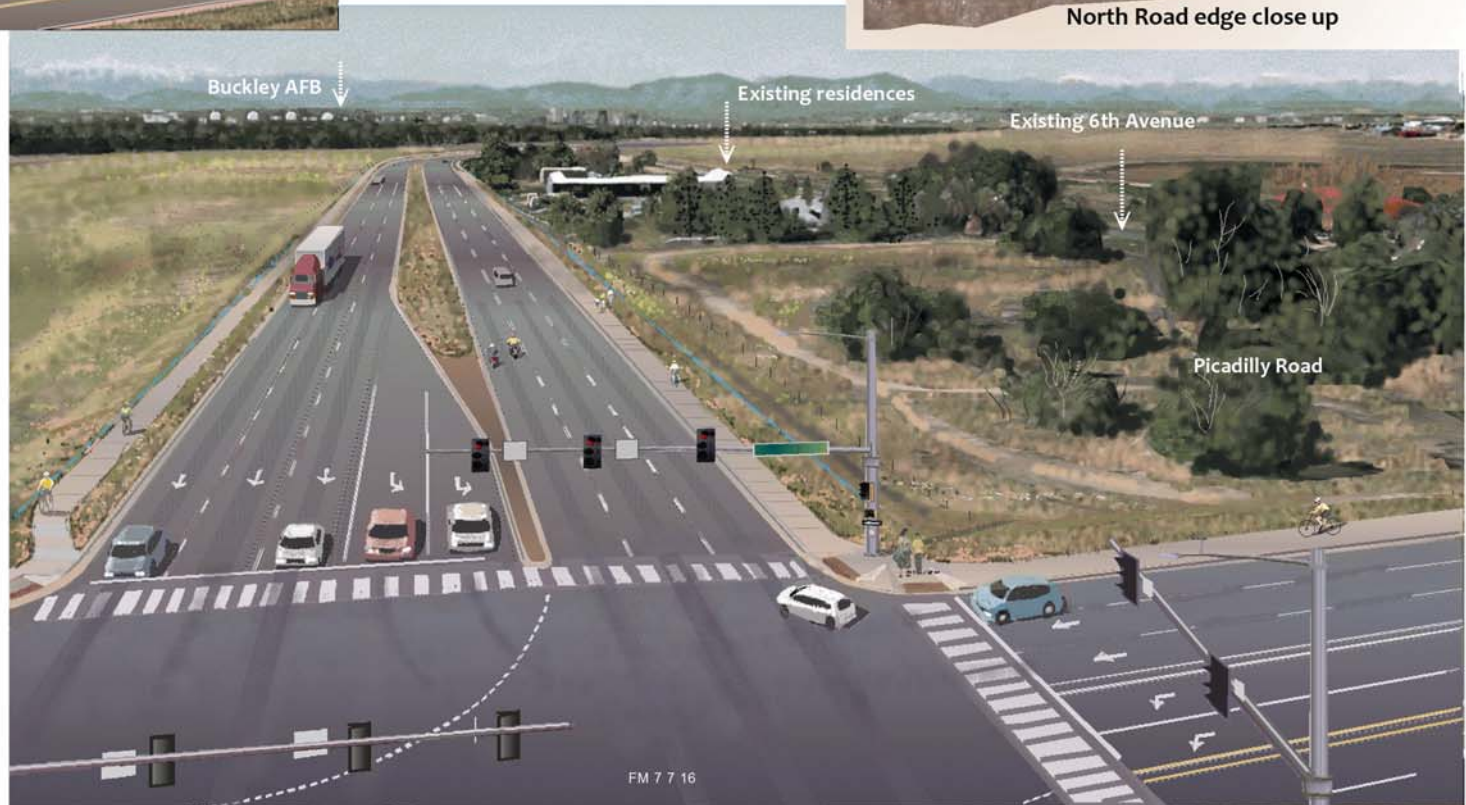

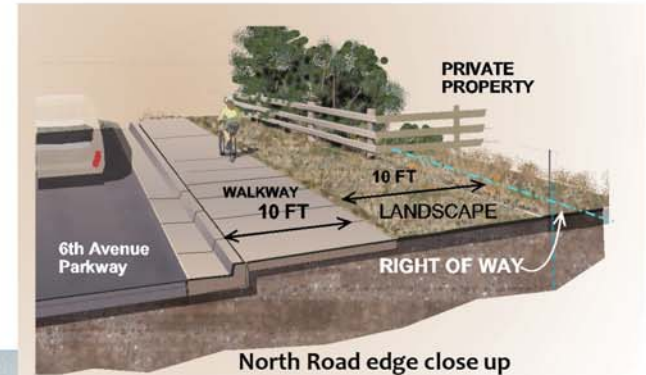

FM 7 7 16

# SIMULATED VIEW OF PICADILLY RD. INTERSECTION CONCEPT

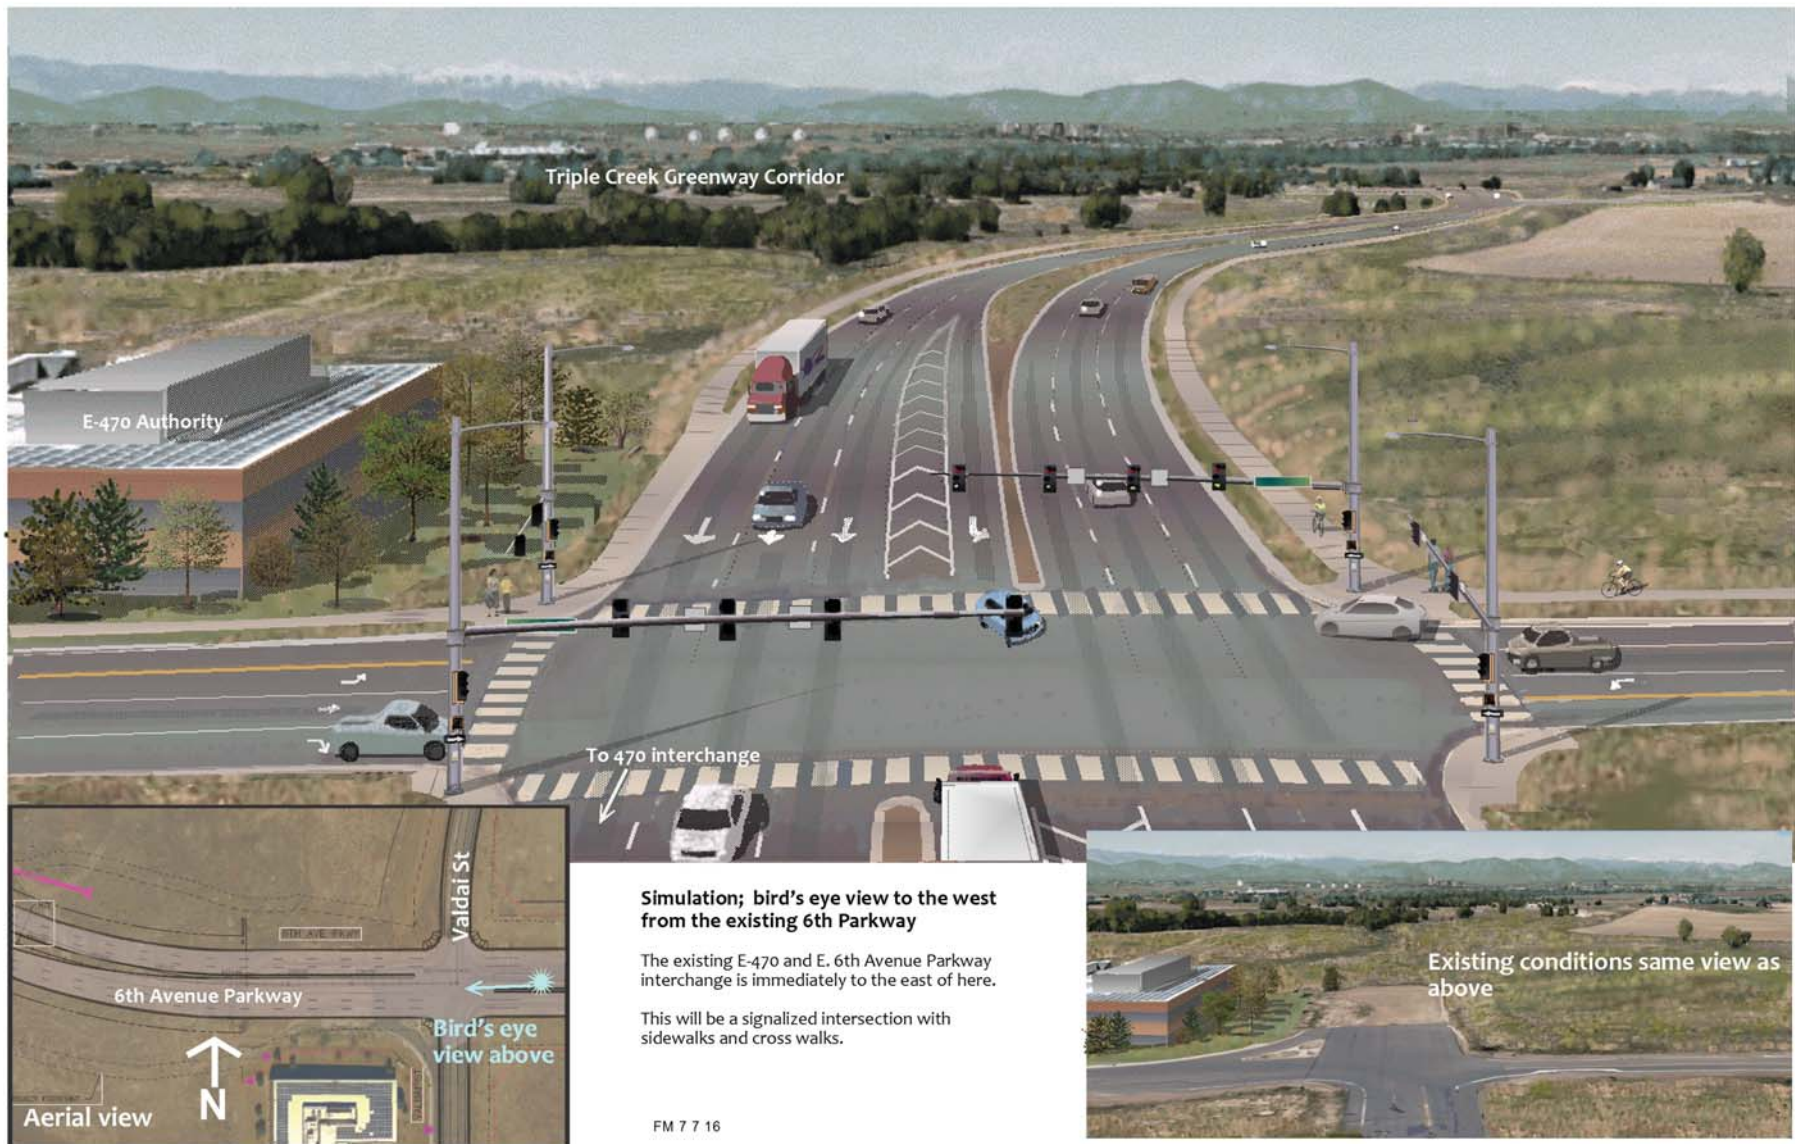

**Bird's eye view to the west of 6th Avenue Parkway and Picadilly Road intersection.** Picadilly Road will also be widened to six lanes and improved as a separate project. This would be a signalized intersection with crosswalks and sidewalks for both roads. Note road edge condition on sketch at right.

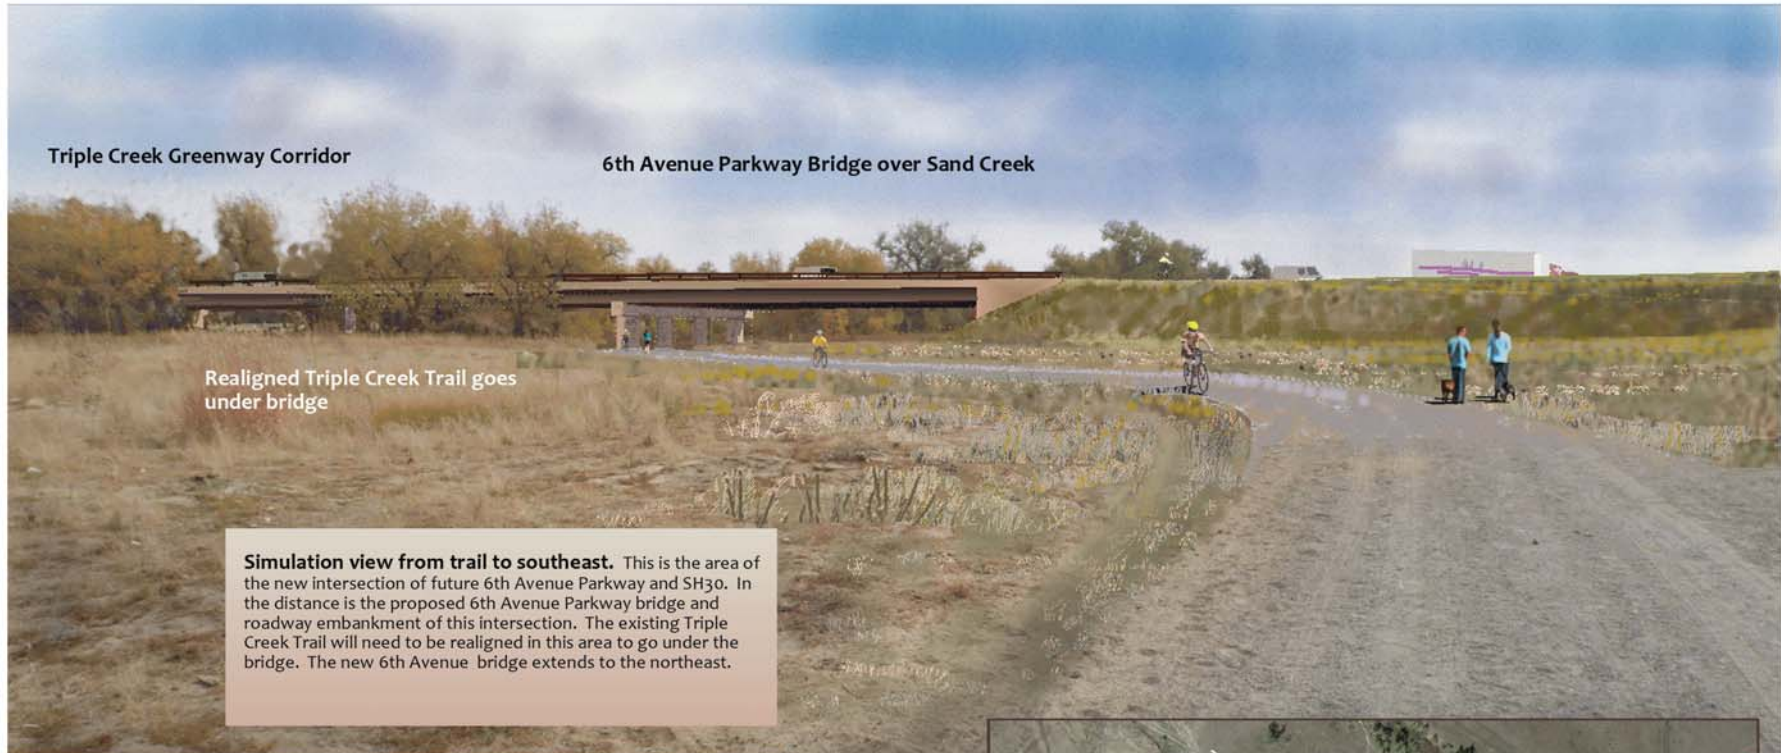

# SIMULATED VIEW OF VALDAI ST./6TH AVE. PKWY. INTERSECTION

# SIMULATED VIEW FROM TRIPLE CREEK TRAIL

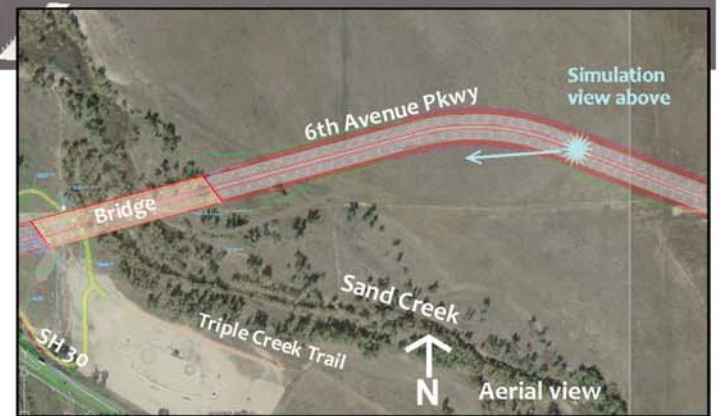

FM 7 7 16

# SIMULATED VIEW OF 6TH AVE. PKWY. & BRIDGE OVER SAND CREEK

**Simulation; ground level view of westbound 6th Avenue Parkway roadway near the Triple Creek Greenway Corridor.**

The bridge over Sand Creek is in the distance. This is the ultimate build out with three lanes in each direction. To the left or south is a proposed water quality pond to handle roadway runoff.

FM 7 7 16

# WHY IS THERE A PROPOSED *DE MINIMIS* FINDING ON THE ENVIRONMENTAL DAY CAMP?

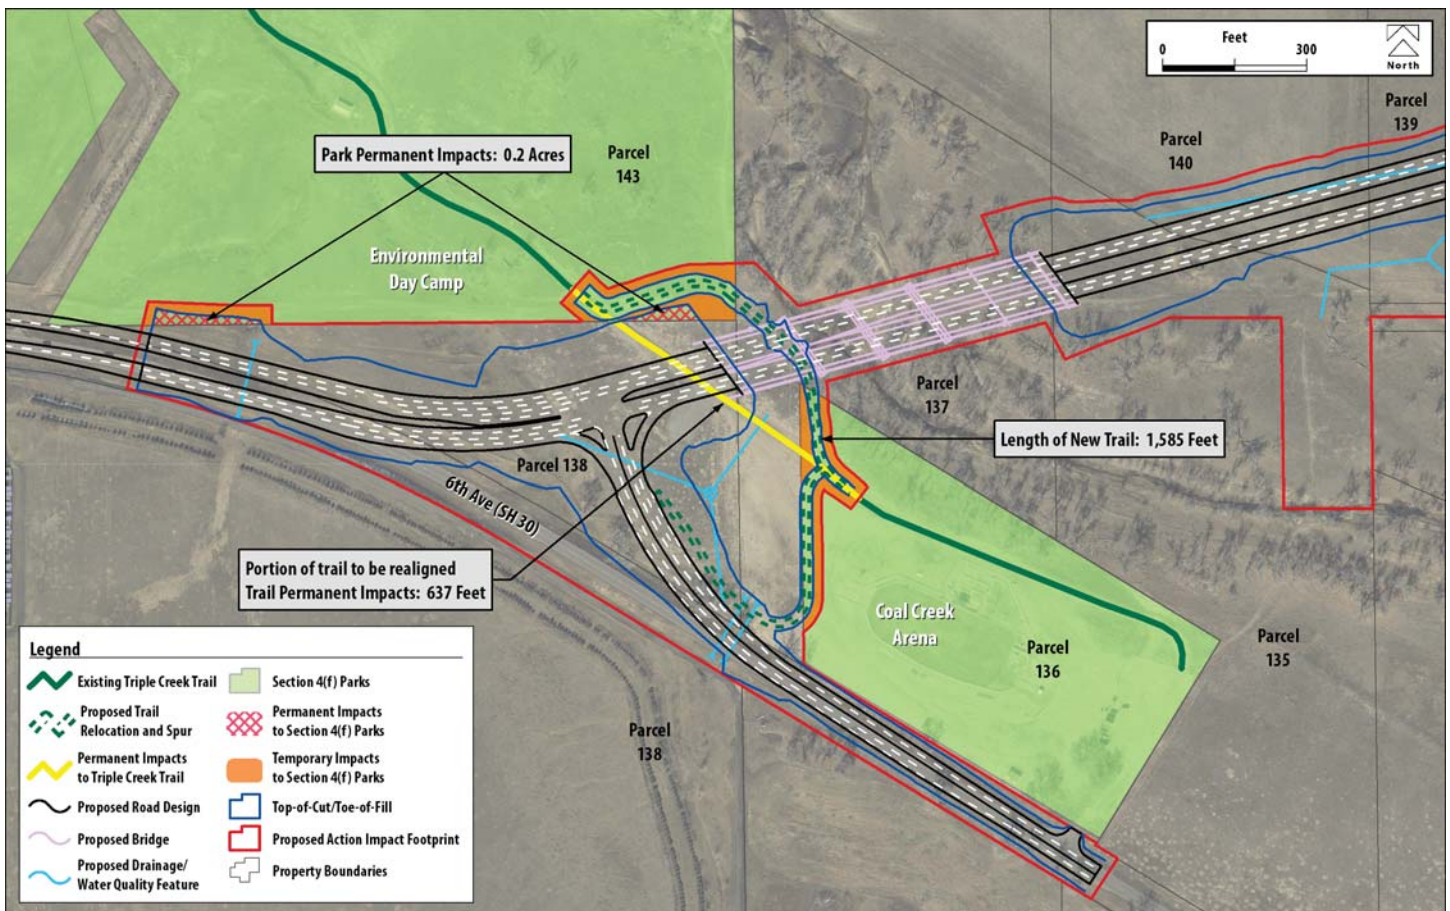

The Environmental Day Camp will be impacted by grading associated with the Proposed Action roadway and bridge. Impacted vegetation will be reseeded with native seed once construction activities are completed to blend in with the surrounding open space.

## What is a *de minimis* finding?

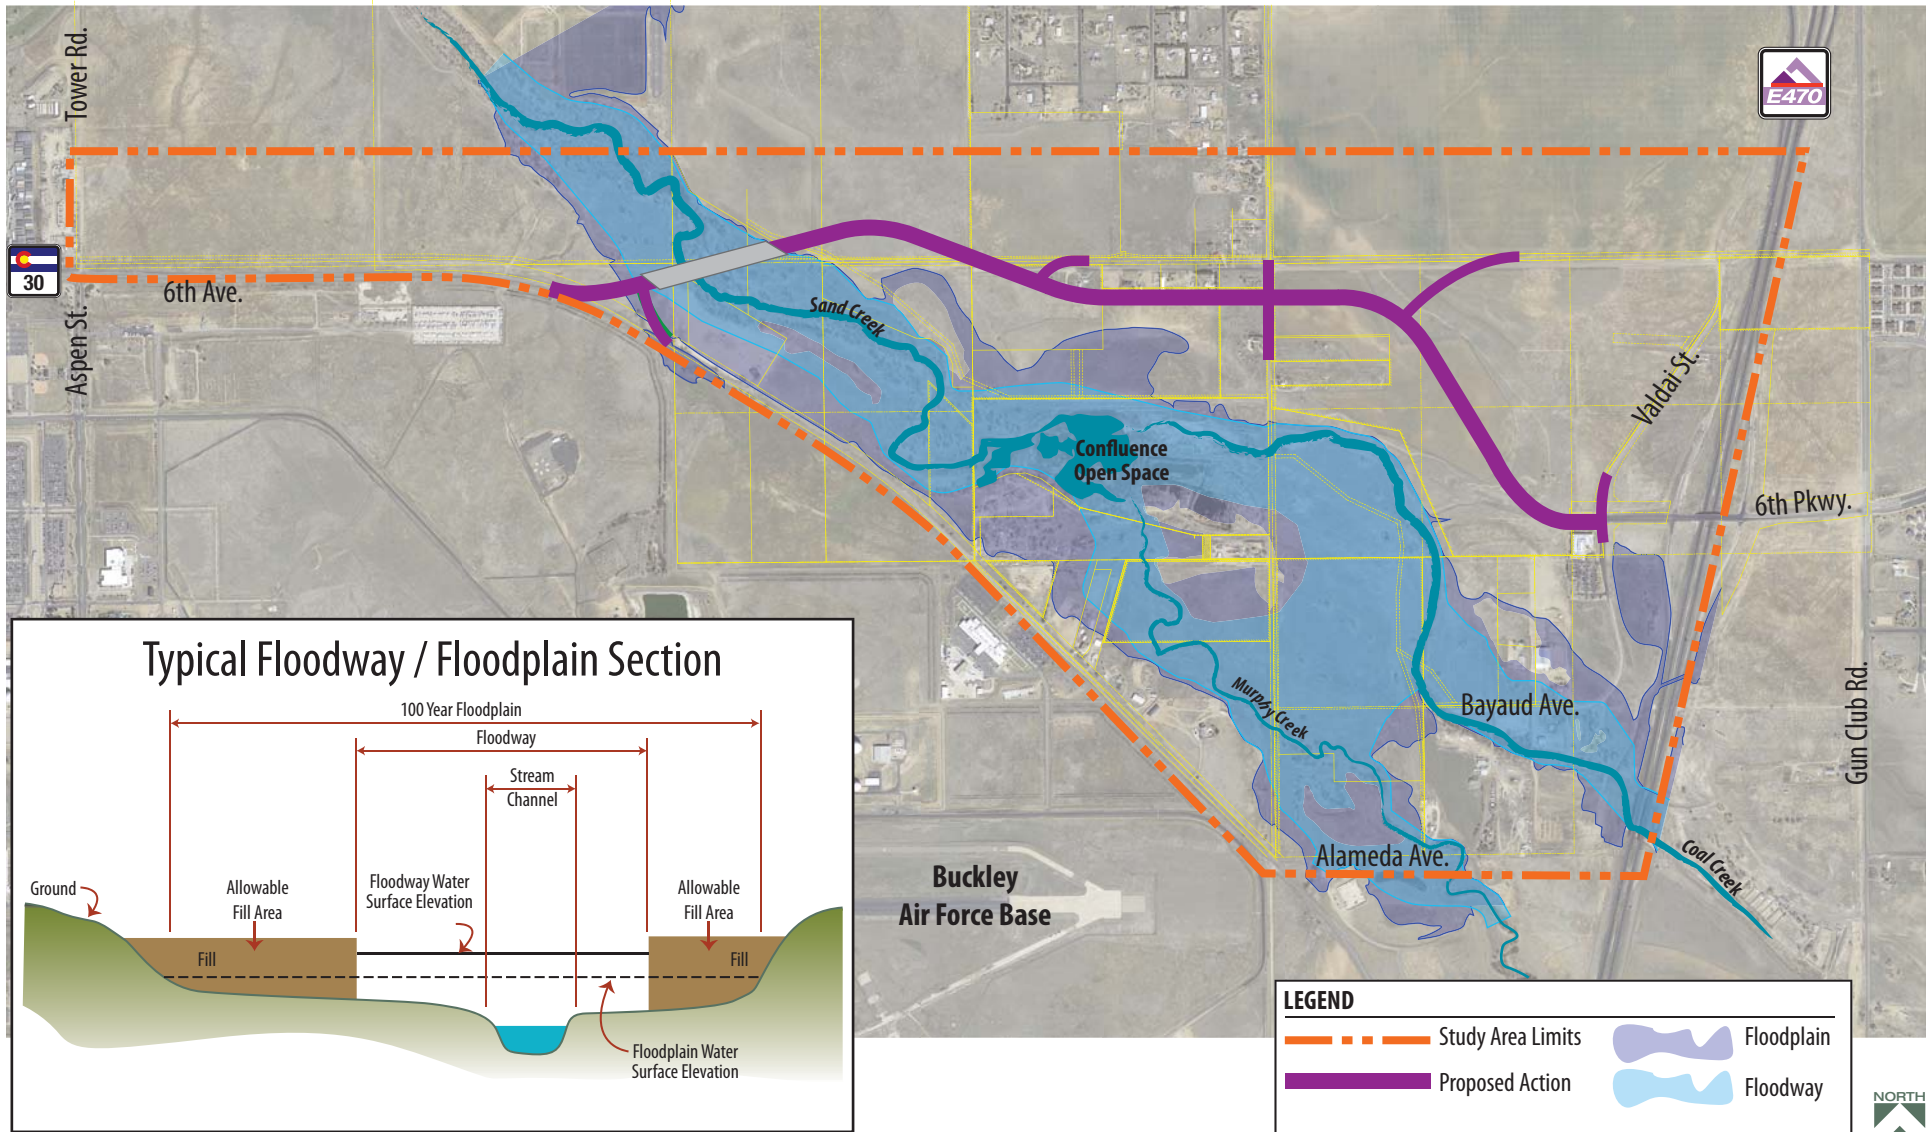

The use of a transportation project on a park, recreational area, or wildlife and waterfowl refuge that qualifies for Section 4(f) protection may be determined to be *de minimis* if it does not adversely affect the activities, features, and attributes that qualify the resource for protection under Section 4(f) in 23 CFR 774.5(b)(2).

This project does not adversely affect the activities, features, and attributes that qualify the resource for protection under 4(f), therefore, FHWA and CDOT propose *de minimis* finding for this resource.

**CDOT and FHWA are soliciting public input on this proposed *de minimis* finding to advance this determination.**

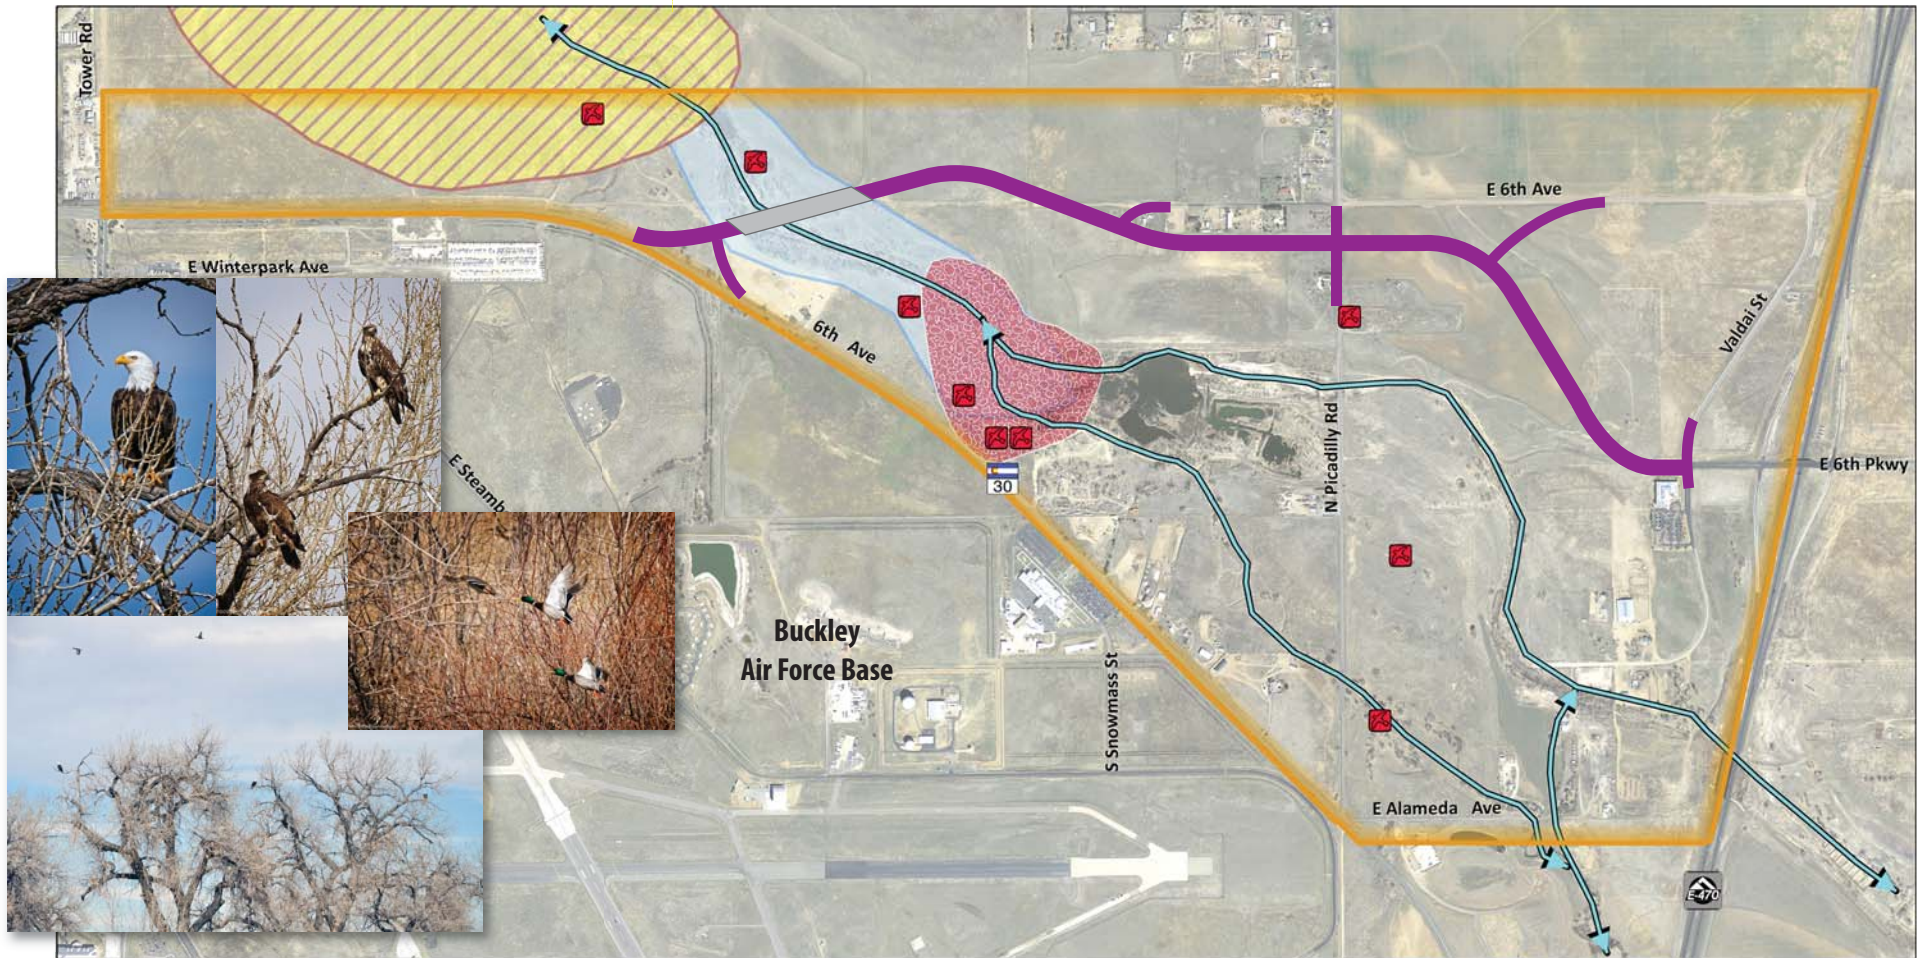

# FLOODPLAINS & FLOODWAYS

# WILDLIFE ACTIVITY

-  Existing Raptor Nests
