The Entryway

What do you want US 24 to be?

US 24 provides a vital east/west connection for the Pikes Peak region and is the only major access to the mountains between US 285 in Denver and US 50 through Pueblo. This heavily-used highway is an important tourist route, but it also is regionally significant because it serves the Cripple Creek gaming area, daily commuter traffic into and out of Colorado Springs, residential and business access, plus intra-city east/west trips.

US 24 is the only major access to the mountains between US 285 and US 50.

Environmental Assessment (EA) of US 24 West from Manitou Springs to Interstate 25. The purpose of the EA is to explore reasonable and feasible solutions to address current congestion and safety issues as well as

the corridor's future transportation needs.

We're at the beginning of the US 24 West project, so no decisions have been made.

Throughout the project, we will develop technical data and provide you with opportunities for

input. US 24 West is important to those of you who live, work or travel through the area. You know the highway the best, and you can make a difference.

To add your name to our mailing list, you may call, write, or visit our Web site at:

www.dot.state.co.us/us24w/

Members of the project team are also available to talk with civic or business organizations about the project. Call 719-477-4970 to arrange for a speaker.

This corridor is currently congested and is expected to see continued growth in traffic for the next 20 years. Without improvements to US 24, congestion will likely increase.

The Colorado Department of Transportation (CDOT) has contracted with the consulting team of CH2M HILL and Wilson & Company to conduct an
