

## Vision

### A Community Vision for the US 24 West Corridor

*Our Vision for US 24 West improvement will integrate into the community fabric, while providing safety, accessibility and mobility.*

*The Plan must...*

- *begin with the existing plans for the corridor,*
- *address the needs of the multiple users of multiple modes,*
- *enhance the corridor aesthetics, and*
- *provide access to destinations and gateways.*

*The US 24 improvements must...*

- *protect neighborhoods*
- *support economic vitality in the adjacent areas*
- *avoid and minimize adverse impacts to the natural and human environments*
- *provide way-finding systems that guide users and that identify the US 24 corridor*

*Meaningful stakeholder involvement in the US 24 process, as measured by the stakeholders, is necessary to gain endorsement of the improvements and support for coordinated implementation.*

## Critical Issues

Needs of the multiple users who have multiple objectives

Corridor aesthetics

Corridor's context and setting including the adjacent neighborhoods and surrounding businesses

Economic viability

Surrounding natural and human environment

Safety, accessibility, and mobility

US 24 is a destination and a connector to gateways with other destinations

Coordinated implementation

Effective and fundable solutions

## The Entryway Criteria

### Community Values

- Does this solution provide mobility for non-motorized users?*
- Is this solution compatible with the corridor's context and setting?*
- Is this solution compatible with local goals and plans?*

### Environmental

- Can adverse environmental impacts be avoided, minimized or mitigated?*

### Safety, Accessibility and Mobility

- Does this solution provide access for local trips?*
- Does this solution provide regional mobility?*
- Does this preserve future transportation mobility options?*
- Is this solution compatible with the existing and planned transportation system?*
- Does this solution improve safety?*

### Implementation

- Is this compatible with local agency long-range plans?*
- Is this a proven technology?*
