

Traffic delays for rock scaling scheduled for April 6-8 during the day and night work for paving on April 13-14 *Expect delays and crews on the roadway*

PROJECT OVERVIEW

Starting Apr. 6 through Apr. 8, crews have several activities planned that will impact traffic and improve safety for travelers.

On Apr. 6-8, between 9 a.m. to 1 p.m., crews will work on the slope east of US 85 between mile posts 193 and 191.75. Motorists can expect delays up to 20 minutes while crews work remove loose rock from the hill and roadway. The work is being implemented to keep falling debris away from the roadway and traffic.

For the safety of motorists and workers, drivers are reminded to obey all posted speed limits through the project. Reduced lane widths and reduced speed limit of 45 mph will be in effect until further notice. CDOT recommends that motorists utilize I-25 as an alternate route during these closures to avoid delays while commuting.

On the night of Apr. 13 and 14 from 7 p.m. to 6 a.m. crews will remove and repave Airport Road between US 85 and N. Peterson Road. A detour will be in place while work occurs and travelers can access Airport Road from US 85 from Kelly Ct./W. Louviers Ave. to Lavaun Dr. to Airport Rd. or from Manhart Ave. to N. Peterson Rd. to Airport Rd. Paving activities will occur during the single night and access to Airport Rd. from US 85 is expected to open the morning of Apr. 15.

TRAVEL IMPACTS

- Daytime work hours range from 7 a.m. to 7 p.m. Monday through Friday. Vehicles are reduced to a single lane in both directions on US 85 through spring 2022. Motorists should expect flaggers on the roadway to help guide them through the construction zone or when work is near intersections. The speed limit is reduced to 45 mph, and work zone fines are doubled. Motorists should plan for possible long traffic delays during the days of Apr. 6-8 from 9 a.m. to 1 p.m. and are advised to avoid the area by using I-25 as an alternate route.
- Night work hours for Apr. 13 and 14 are from 7 p.m. to 6 a.m. with road closure at Airport Road with detours in place, as shown on the map.
