

## West Louviers Avenue closed November 8-14 *Detour in place*

### PROJECT OVERVIEW

Starting Monday, Nov. 8, at 7:00 a.m., crews will work to repave US 85 at the intersection of US 85 and W. Louviers Ave. just west of US 85 south of mile post 194 (at W. Louviers Ave./Kelly Ct.). Motorists can expect paving activities, striping crews, and flaggers on the roadway. The closure is needed for the new concrete roadway.

There will be alternate routes in place to access to the area via Airport Road and W. Titan Road as shown in green and blue on the map to the right. The detours will begin Monday, Nov. 8 at 7:00 a.m. and through the weekend, until the road re-opens on Sunday, Nov. 14 by 7:00 a.m. Flaggers will be present in the construction zone during the work activities.

The southbound detour will route motorists to US 85 and Airport Rd., then right to N. Lavaun Dr.

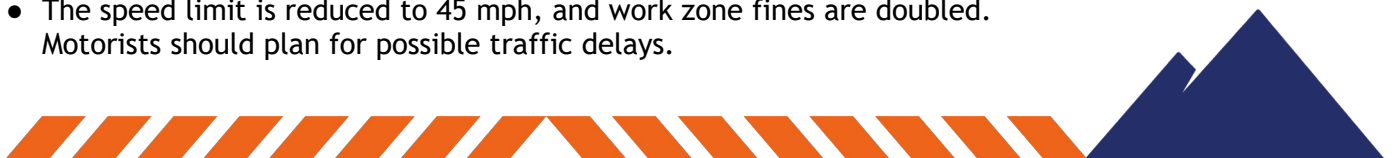

The northbound detour will route motorists to Titan Rd. for turnarounds and then back to US 85 south to Airport Rd. and then right to N. Lavaun Dr.

For the safety of motorists and workers, drivers are reminded to obey all posted speed limits through the project. Reduced lane widths and reduced speed limit of 45 mph will be in effect until further notice.

Castle Rock Construction of Colorado, LLC. is the prime contractor for this project.

### TRAVEL IMPACTS

- Daytime work hours range from 7:00 a.m. to 7:00 p.m. Monday through Friday. Expect closure to remain through the weekend, as concrete work needs time to cure.
- Motorists should expect flaggers on the roadway to help guide them through the construction zone or when work is near intersections.
- The speed limit is reduced to 45 mph, and work zone fines are doubled. Motorists should plan for possible traffic delays.
