Colorado Law requires children to be in boosters (or other appropriate car seats) until they are 8 years old. However, best practice and the safest recommendation is to keep children in a booster seat until they are about 4' 9" tall and can pass the 5 Step Test, for seat belts.

This is the test:

1. Does the child sit all the way back against the vehicle seat?
2. Do the child's knees bend comfortably at the edge of the vehicle seat?
3. Does the belt cross the shoulder between the neck and arm?
4. Is the lap belt as low as possible, touching the thighs?
5. Can the child stay seated like this for the whole trip?
