Mission

The mission of the Colorado Task Force on Drunk and Impaired Driving (CTFDID) is to support the prevention, awareness, enforcement, and treatment of drunk and impaired driving in Colorado through strong partnerships with public, private and non-profit organizations.

The CTFDID brings people together, creating a forum for victims and advocates to access many experts and resources in one place. It provides a formal mechanism to leverage resources in order to create a multi-faceted approach to solving a problem, which is often minimized and understated in our community. The CTFDID acts as a resource for the legislature, enabling it to consider more cohesive, well-thought-out proposals.

 - Crystal Soderman. DOR is in process of determining how to implement federal change for commercial drivers. Need to create a clearinghouse where employers report when there has been a drug or alcohol violation for commercial drivers. It requires agencies to query clearinghouse and license would be refused or downgraded if the driver has a violation.
