Mission

The mission of the Colorado Task Force on Drunk and Impaired Driving (CTFDID) is to support the prevention, awareness, enforcement, and treatment of drunk and impaired driving in Colorado through strong partnerships with public, private, and non-profit organizations.

The CTFDID brings people together, creating a forum for victims and advocates to access many experts and resources in one place. It provides a formal mechanism to leverage resources in order to create a multi-faceted approach to solving a problem, which is often minimized and understated in our community. The CTFDID acts as a resource for the legislature, enabling it to consider more cohesive, well-thought-out proposals.

Statistics, State Fatality Numbers:

- Glenn Davis, CDOT
- Sarah Barkley, CDPHE
 - 524 crashes and 566 fatalities. This is a decrease from last year, but an increase from 2021.
 - Questions/Comments
 - Truman Bradley: What can we learn from this? Are there trends that are actionable? Is there a way to slice the data, would love to figure look at more granular data?
 - Sarah Barkley Response: Can get more specific location data in the crash report data. Have through early 2023 and that will give latitude and longitude of crashes. The CDOT engineers do that so we could get more specific location data. As far as a map. And then also one of my teammates here at CDPHE has developed. An alcohol outlet density map, any sort of liquor store or bar or restaurant that serves alcohol. Wanting to overlay that with either impaired, crashes, or maybe pedestrian evolved crashes.
 - Truman Bradley: Other states seeing a reduction? Who does it the best? Is there another State that has come up with other things?
 - Josh Downing Response: Four people working on for the last 5 years on website. How we can reduce the amount of time it takes a peace officer to process DUI. Finally, to the point where confident in the data that we have and we're producing to get good locations on impaired driving fatalities.

- Truman Bradley: Walk the process for what it takes to book a DUI and figure out where that could be improved and what the barriers are, is it a statutory barrier?
- Tuesday Black Response: Address later when discussing bylaws but used to have subcommittees and restoring them next year and can be tackled during working groups.
- Fran Lanzer: Regional Council of Governments Vision Zero Group has done a ton of work on mapping high injury network. All fatal traffic, crashes.
- Dave Fisher: Need cops on the ground, most agencies around, don't have enough to focus on DUI's.
- Rachel Reinhardt, CDSP
 - Only CSP data not Statewide
 - Jan 1st to September 30th, lower number of injuries in fatal crashes
 - Month of September, dramatic drop in property crashes
 - All together property decreased for 2023 from previous years.
 - Month of September (doesn't include property)
- Josh Downing: clarification Proactive -pre-crash, reactive-after crash
- Crystal Soderman, DOR/DMV:
 - There we are up over 50% for refusals for the last couple of months. We were trending down a little bit, but the last couple of months of spiked. We've been doing a lot of discussion around. What's happening? Why are the refusals happening?
- Glenn Davis, CDOT:

 - Paul Aylmer: How many subgroups?
 - Glenn Davis: 5 groups and groups within groups
 - Fran Lanzer: we must work on these 6 things but can add other groups as needed. Separate topic-in terms of members, can vacate positions if needed or create guidelines to vacate positions? There are folks that haven't been to a meeting in over a year.
 - Glen Davis: Page 3, Section 3 about absences. Very reluctant to vacate a state position.
 - Fran Lanzer: Section 3 Attendance at very end, last sentence. Do we need to define excessive?
 - Josh Downing: Leave it to the executive committees.
 - Glenn Davis: Advise be very careful taking off it, maybe a phone call.
 - Josh Downing: Phone call and let them know they can send a proxy to vote and identify when do introductions and can give updates.
 - Fran Lanzer: Not suggesting that but make clear expectations; maybe be position by position.
 - Tuesday Black: Will be creating a proxy form to keep record. Will have it out before January on website on CDOT's page.
 - Paul Aylmer: What is the purpose of proxy?
 - Glenn Davis: Someone be able to vote on behalf of my office and can only give it to my position.
 - Fran Lanzer: I represent a Victims Organization would I have to designate another Victims Organization?
 - Tuesday Black: Concern a lot of information is shared at meetings and proxy needs to understand information. We will work hard that voting opportunities are known in advance.

- Truman Bardley: We utilize proxy voting often; a voting member notifies me in writing via email or text and that a specific person has their proxy or a specific vote and have been other voting members and they vote as they see fit and then vote for the proxy. Would be supportive of proxy voting and encourage this group to allow other voting members on this Task Group to be eligible to cast their vote.
 - Fran Lanzer: Another model on liquor advisory group, the proxy member can include my opinion but after the meeting can vote on position in writing.
 - Tuesday Black: Met with attorney to make sure compliance with the Open Meeting Act, want votes to be open within meeting. Do we want to table this for the November meeting and vote on Bylaws right now?
