Dates: April 5th & 6th, 2010 - 8:00 am/5:00pm

Instructors: Officer Mark Ashby - Thornton Police Department  
Deputy Mark George - Boulder County Sheriff Department

**Course Description:** *The Advanced Roadside Impaired Driving Enforcement (ARIDE) program was developed by the National Highway Traffic Safety Administration (NHTSA) with input from the International Association of Chiefs of Police (IACP) Technical Advisory Panel (TAP) and the Virginia Association of Chiefs of Police. ARIDE was created to address the gap in training between the Standardized Field Sobriety Testing (SFST) and the Drug Evaluation and Classification (DEC) Program.*

*The SFST program trains officers to identify and assess drivers suspected of being under the influence of alcohol while the DEC Program provides more advanced training to evaluate suspected drug impairment. The SFST assessment is typically employed at roadside, while an officer trained as a drug recognition expert (DRE) through the DEC Program conducts a drug evaluation in a more controlled environment such as a detention facility.*

*ARIDE is intended to bridge the gap between these two programs by providing officers with general knowledge related to drug impairment and by promoting the use of DREs in states that have the DEC Program. One of the more significant aspects of ARIDE is its review and re-required student demonstration of the SFST proficiency requirements. The ARIDE program also stresses the importance of securing the most appropriate biological sample in order to identify substances likely causing impairment.*
