CASE NO. 2
TYPICAL APPLICATION
MULTI-LANE DIVIDED HIGHWAY WITH RIGHT LANE CLOSED

GENERAL NOTES

1. Temporary portable rumble strip arrays are used to supplement a series of advance warning signs and should be installed and removed when the signs are installed and removed.

2. Reduce the temporary portable rumble strips prior to removing the advance warning signs.

3. Lane markings should be maintained through work zone travel lanes whenever practical.

4. Do not use temporary portable rumble strips on slippery surfaces, such as wet or icy pavement.

5. Do not use temporary portable rumble strips on horizontal curves.

6. Use temporary portable rumble strips in accordance with posted work zone speed limits or 35 mph, whichever is less.

7. For the lowest or highest temperature to apply the temporary portable rumble strips, refer to the temporary portable rumble strip manufacturer.

8. Refer to manufacturers' recommendations.

DETAIL - TEMPORARY PORTABLE RUMBLE STRIP ARRAY

PORTABLE RUMBLE STRIPS (TEMPORARY)

STANDARD PLAN NO. S-630-5
