

MEMORANDUM

TO: ALL HOLDERS OF STANDARD PLANS

FROM: K.C. MATTHEWS, TRAFFIC STANDARDS AND SPECIFICATIONS ENGINEER

DATE: APRIL 30, 2018

SUBJECT: REVISION OF STANDARD PLAN S-614-12, STRUCTURE NUMBER INSTALLATION

With this memorandum, the Safety and Traffic Engineering Branch is issuing revisions to the S-614-12 standard plan set. The Revised Standard Plan S-614-12, Sheets 1 of 2 and 2 of 2, supersedes the current Standard Plan sheets of the same title and number.

Following is the change on the revised sheets:

- Sheet 1/2 -
Added notes 9 and 10, which identify location requirements of structure numbers for walls and the requirements of structure number visibility.
Added "Location on Sign Structure" detail.
Added a new detail for structure number location requirements behind W-Beam Guardrail in the "Vertical and Lateral Placement Details" section.
Added location distances for minor structures in the "Location Details" section.
- Sheet 2/2 -
A new sheet was created which includes structure identification panels for Wall/Minor Structures, Streams, and Barrier/Fence installations.

The designer should be sure that there are no other plan requirements or special provisions that conflict with these standards.

To obtain a print copies of this standard please check the Traffic Engineering Standards and Specifications web site:
