

MEMORANDUM

To: All Holders of Standard Plans
From: Esayas Butta, Traffic Standards and Specifications Engineer
Date: March 1, 2024
Subject: Issuance of Standard Plan S-614-02 “Class I Signs”

With this memorandum, the Traffic Safety and Engineering Services Branch is issuing the S-614-02 standard plan set. This standard plan set, with all revisions, supersedes all previous standard plans of the same title.

The following revisions have been made to the S-614-02 standard plan set:

Sheet 1 of 1

- Made the following revisions to note 2.
 - Removed the option of 0.08” thickness for Class I sign panels.
 - Added the option to directly attach Class I sign panels to T brackets for sign panels up to 60 inch and U brackets for sign panels for up to 48 inches.
- Revised note 3 to include the bolt diameters needed for the U-2, Timber, and P posts.
- Revised note 4 to include the washer diameter.
- Revised note 8 to include the option of 1 ½ inch for vertical spacing between panels.
- Added a detail drawing for a Typical P post section.

The designer should ensure that there are no other plan requirements or special provisions that conflicts with this standard.

A printable version of this standard could be downloaded from the Traffic Safety and Engineering Standards and Specifications website:
