# Current Modes Are Unsustainable

Transportation networks within the U.S. are at or near capacity  
With demand expected to grow ...

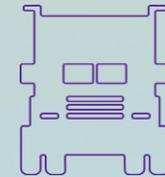

**2x**

Increase in port volume  
by 2035

**80%**

Increase in passenger  
miles in 30 years

**88%**

Increase in freight tonnage  
by 2035

## ...What is the solution?

Bigger Airports?

More Rail Lines?

More Cargo Ships?

More Trucks?

Wider Highways?

Bigger Ports?
