

# CHECK YOUR TREAD

**Winter**  
**Wise**

**COLORADO**

Department of Transportation

[winter.codot.gov](http://winter.codot.gov)

Colorado's Traction Law requires all tires to have at least  $\frac{3}{16}$  of tread depth.

If your vehicle is NOT 4WD or AWD, your tires must be either mud/snow tires (M+S icon), winter tires (mountain-snowflake icon), or tires with an all-weather rating by the manufacturer.

- Check your tires regularly.
- Check at several points around each tire.

$\frac{3}{16}$ "
